GEOGRAPHY
PAPER 2

4022/2
2 hours 30 minutes

NOVEMBER 2025 SESSION

Additional materials:
Answer booklet

INSTRUCTIONS TO CANDIDATES

Write your name, centre number and candidate number in the spaces provide on the answer booklet.

Answer **four** questions, **one** question from each of sections **A, B, C** and **one** other question from any section.

Write your answers on the separate answer booklet provided.

If you use more than one booklet, fasten them together.

INFORMATION FOR CANDIDATES

The number of marks is given in brackets [] at the end of each question or part question.

Sketch maps and diagrams should be drawn whenever they serve to illustrate an answer.

This question paper consists of 11 printed pages.

Section A (PHYSICAL GEOGRAPHY)

Answer at least **one** question from this section.

- 1 (a) (i) Describe the characteristics of sedimentary rocks. [3]
- (ii) Copy and complete the table below.

ORIGINAL ROCK	METAMORPHIC FORM
sandstone	
limestone	
	graphite
granite	

- (b) (i) **Figure 1** below shows a landform that is found in tropical deserts.

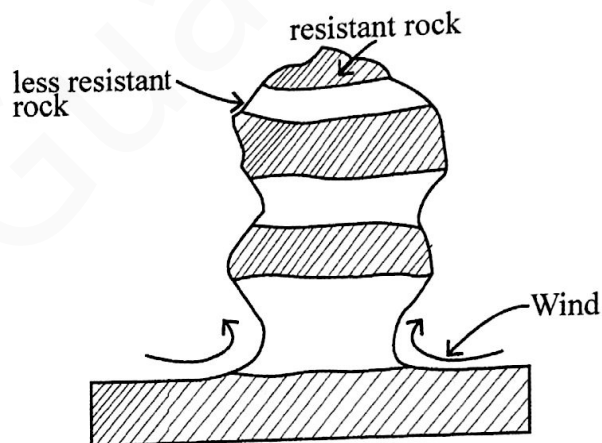

Fig. 1

- Describe the formation of the landform shown in **Fig.1** above. [5]
- (ii) Describe any **three** wind transportation processes. [6]
- (c) (i) Outline the problems faced by people living near large rivers. [4]
- (ii) What measures can be introduced to deal with the problems identified in **c(i)** above? [3]

- 2 (a) (i) Match the description with the type of cloud in the table below.

Cloud type	Description
Nimbostratus	Thin, feathery and wispy. Made of ice crystals
Cirrus	Heaped, fluffy layers of various shapes
Cumulus	Towering with large anvil shaped top
Cumulonimbus	Multilayered, dark grey and covering the whole sky

[4]

- (ii) State any **three** factors to consider when siting a weather station.

[3]

- (b) (i) **Figure 2** shows a weather system that develops over the Indian Ocean.

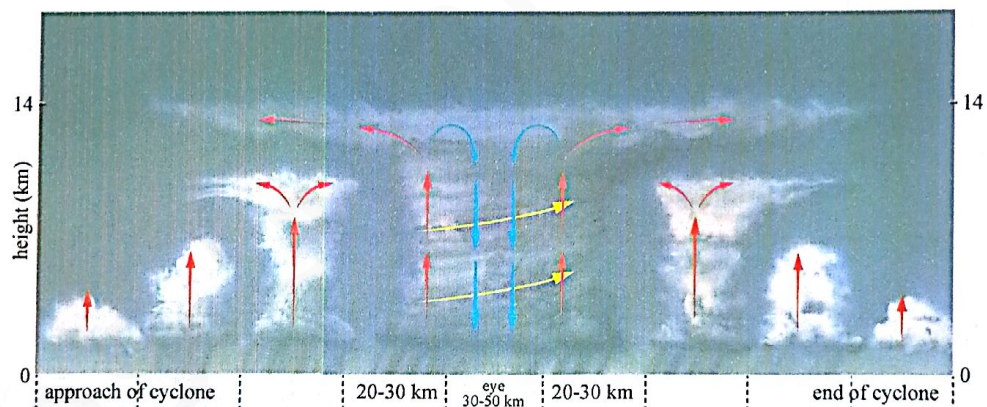

Fig. 2

Name the weather system shown in **Fig. 2** above.

[1]

- (ii) Describe the weather conditions associated with the system shown in **Fig. 2** above.

[6]

- (iii) Draw isobars to represent the weather system shown in **Fig. 2** above on a synoptic map of Southern Africa.

[4]

- (c) Identify the Indigenous Knowledge Systems (IKSs) used to predict weather conditions in your area.

[7]

- 3 (a) (i) What is a map?

[2]

- (ii) Outline **five** characteristics of a good map.

[5]

- (b) (i) Copy and complete the table below.

Place	Longitude	Time	Day
Accra, Ghana	0°	2am	Thursday
Harare	30°E		Thursday
New Orleans, USA	90°W		

[3]

- (ii) Describe **three** types of scale used on topographic maps.

[6]

- (c) (i) Outline the problems of setting up an effective remote sensing system in Zimbabwe.

[5]

- (ii) Suggest measures to deal with the problems outlined in c(i) above.

[4]

- 4 (a) Classify the following into **biotic** and **abiotic** components:
water, vegetation, soil, rocks, air, animals, and light.

[7]

- (b) (i) The **photograph** below shows an ecosystem.

- Name the ecosystem shown in the **photograph** above.

[1]

- (ii) Describe the characteristics of the ecosystem shown in the **photograph** above.

[4]

- (iii) Identify human activities that threaten the ecosystem shown in the **photograph**.

[6]

- (c) Examine the role of Indigenous Knowledge Systems (IKSs) in conserving ecosystems in your community.

[7]

SECTION B (ECONOMIC GEOGRAPHY)

Answer at least **one** question from this section.

- 5 (a) (i) Explain the meaning of the term *conservancy*. [3]
- (ii) Describe the operations of the Communal Areas Management Program For Indigenous Resources (CAMPFIRE) project. [4]
- (b) (i) The table below shows fish production in selected African countries.

Country	Fish Production in tonnes
Malawi	30
Namibia	20
Zimbabwe	10
Mozambique	30
Zambia	10

- Draw a pie chart to show fish production shown on the table above. [5]
- (ii) Explain the variations in fish production shown in the table above. [6]
- (c) (i) How can the government of Zimbabwe improve access to safe water for both rural and urban populations? [4]
- (ii) Explain reasons for the ineffectiveness of measures mentioned in c(i) above. [3]
- 6 (a) Outline the characteristics of illegal mining. [7]

- (b) (i) **Figure 6** below shows the location of Hwange coal fields.

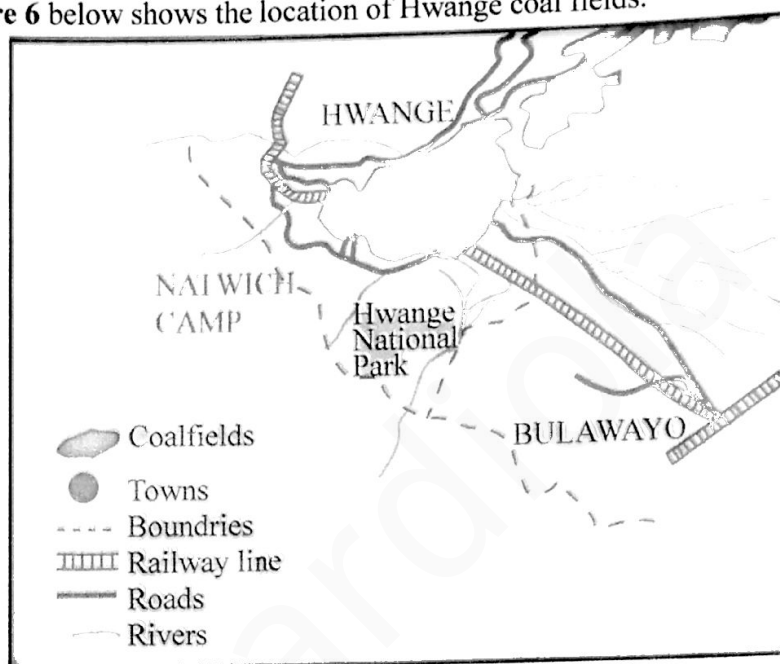

Fig. 6

Identify other coal mining areas in Zimbabwe. [3]

- (ii) Explain the factors shown on **Fig. 6** that have influenced the location of Hwange coal mine. [8]

- (c) (i) Examine the dangers of shaft mining in Zimbabwe. [4]

- (ii) Suggest steps that can be taken to reduce dangers in **c(i)** above. [3]

- 7 (a) (i) Describe any **two** agricultural land use zones. [4]

- (ii) State the importance of land use zoning. [3]

- (b) (i) The table below shows the percentage of agricultural production by provinces and the percentage of population experiencing food insecurity.

PROVINCES	MANICALAND	MASVINGO	MATABELELAND NORTH	MIDLANDS
% of agricultural production	80	70	30	90
% of population facing food insecurity	20	30	80	20

Draw a bar graph to represent the information shown in the table above. [6]

- (ii) Identify the province with the highest percentage of food insecurity? [1]
- (iii) Explain the pattern of food security shown in the table above. [4]
- (c) What measures are put in place to solve problems of shortage of grazing pastures in communal areas of Zimbabwe? [7]
- 8 (a) Copy and complete the table below.

Type of industry	Description	Example
Primary	-----	-----
-----	-----	Manufacturing
Tertiary	-----	-----
-----	Provides information and ICTs	Data processing

[7]

- (b) **Figure 8** shows an integrated steel plant.

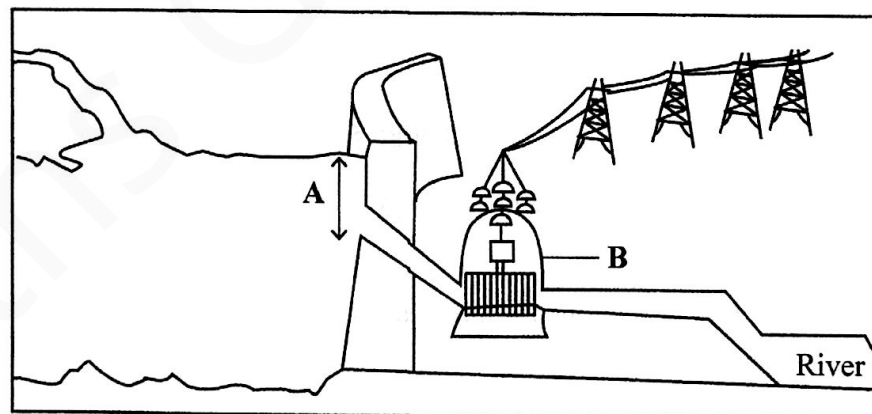

Fig. 8

- (i) Explain an integrated steel plant? [2]
- (ii) State the inputs of the integrated steel plant. [5]
- (iii) Describe the steel production process. [4]
- (c) (i) Explain reasons for the decline in manufacturing industries in Zimbabwe. [4]
- (ii) Suggest solutions to the decline in manufacturing industries in Zimbabwe. [3]

SECTION C (POPULATION AND SETTLEMENT, ENVIRONMENTAL MANAGEMENT, TRANSPORT AND TRADE)

Answer at least **one** question from this section.

- 9 (a) (i) State any **three** raw materials used to produce biogas. [3]
- (ii) List any **four** renewable sources of energy. [4]
- (b) **Figure 9** shows a technology that is used to produce energy.

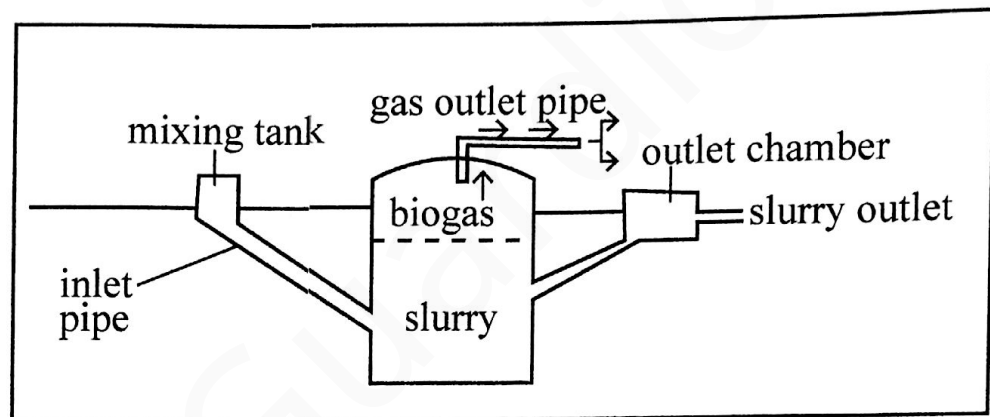

Fig. 9

- (i) Name the technology shown in **Fig. 9** above. [1]
- (ii) Describe how energy is produced using the technology shown in **Fig. 9** above. [5]
- (iii) Outline the advantages and disadvantages of using biogas as a source of energy. [5]
- (c) Suggest ways of conserving energy used in the transport sector. [7]
- 10 (a) Outline strategies used to restore degraded environments in your area. [7]

- (b) **Figure 10** shows aspects of the environment.

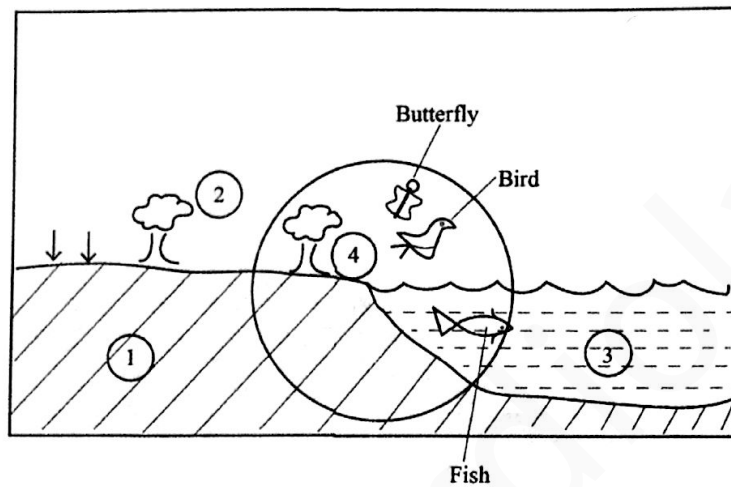

Fig. 10

- (i) State the aspects of the environment marked 1, 2, 3 and 4 shown in **Fig. 10** above. [4]
- (ii) Explain the importance of the aspects 1, 2 and 3 in the environment. [7]
- (c) Assess the importance of land use planning as a strategy for sustainable environmental management. [7]
- 11 (a) Explain the terms:
Crude birth rate,
infant mortality rate,
natural increase. [6]

(b) Figure 11 shows a population pyramid of Zimbabwe.

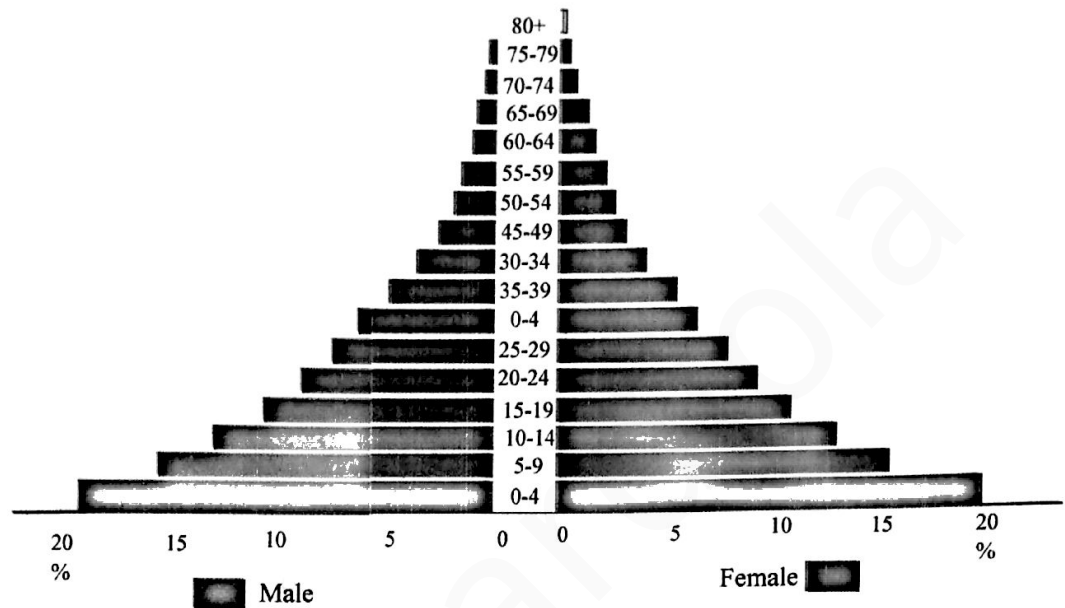

Fig. 11

- (i) Explain the characteristics of the population pyramid shown in Fig. 10 above. [6]
- (ii) Outline ways of reducing rapid population growth in Zimbabwe. [6]
- (c) Outline the challenges faced in eradicating malaria in Zimbabwe. [7]
- 12 (a) (i) Explain the terms *balance of payments* and *exports*. [4]
- (ii) State any three benefits of beneficiation of exports to Zimbabwe. [3]
- (b) The Table below shows number of passengers ferried by the National Railways of Zimbabwe from 2015 to 2020.

Year	Number of passengers per year
2015	50 000
2016	40 000
2017	35 000
2018	15 000
2019	8 000
2020	5 000

- (i) Describe the trends shown in the table above. [5]

- (ii) Outline the possible reasons for the decline in the number of passengers ferried by national railways of Zimbabwe. [6]
- (c) Examine the efforts being made by the government to resuscitate the National Railways of Zimbabwe. [7]
