PAPER 1 Multiple Choice

4022/1

1 hour 15 mins

JUNE 2024 SESSION

1: 50 000 Survey map is enclosed with this question paper.

Additional materials:

Multiple Choice answer sheet

Soft clean eraser

Soft pencil (type B or HB is recommended)

Mathematical set

Calculator

INSTRUCTIONS TO CANDIDATES

Answer **all** questions. For each question, there are four possible answers, **A, B, C and D**. Choose the correct answer. Record your choice in **soft pencil** on the separate answer sheet provided.

Read very carefully the instructions on the answer sheet.

INFORMATION FOR CANDIDATES

There are **forty** questions in this paper. Each correct answer will score **one** mark. Any rough working should be done in this question paper.

This question paper consists of 15 printed pages and 1 blank page.

Mapwork

Questions 1-12 refer to 1: 50 000 map of Wedza, Zimbabwe

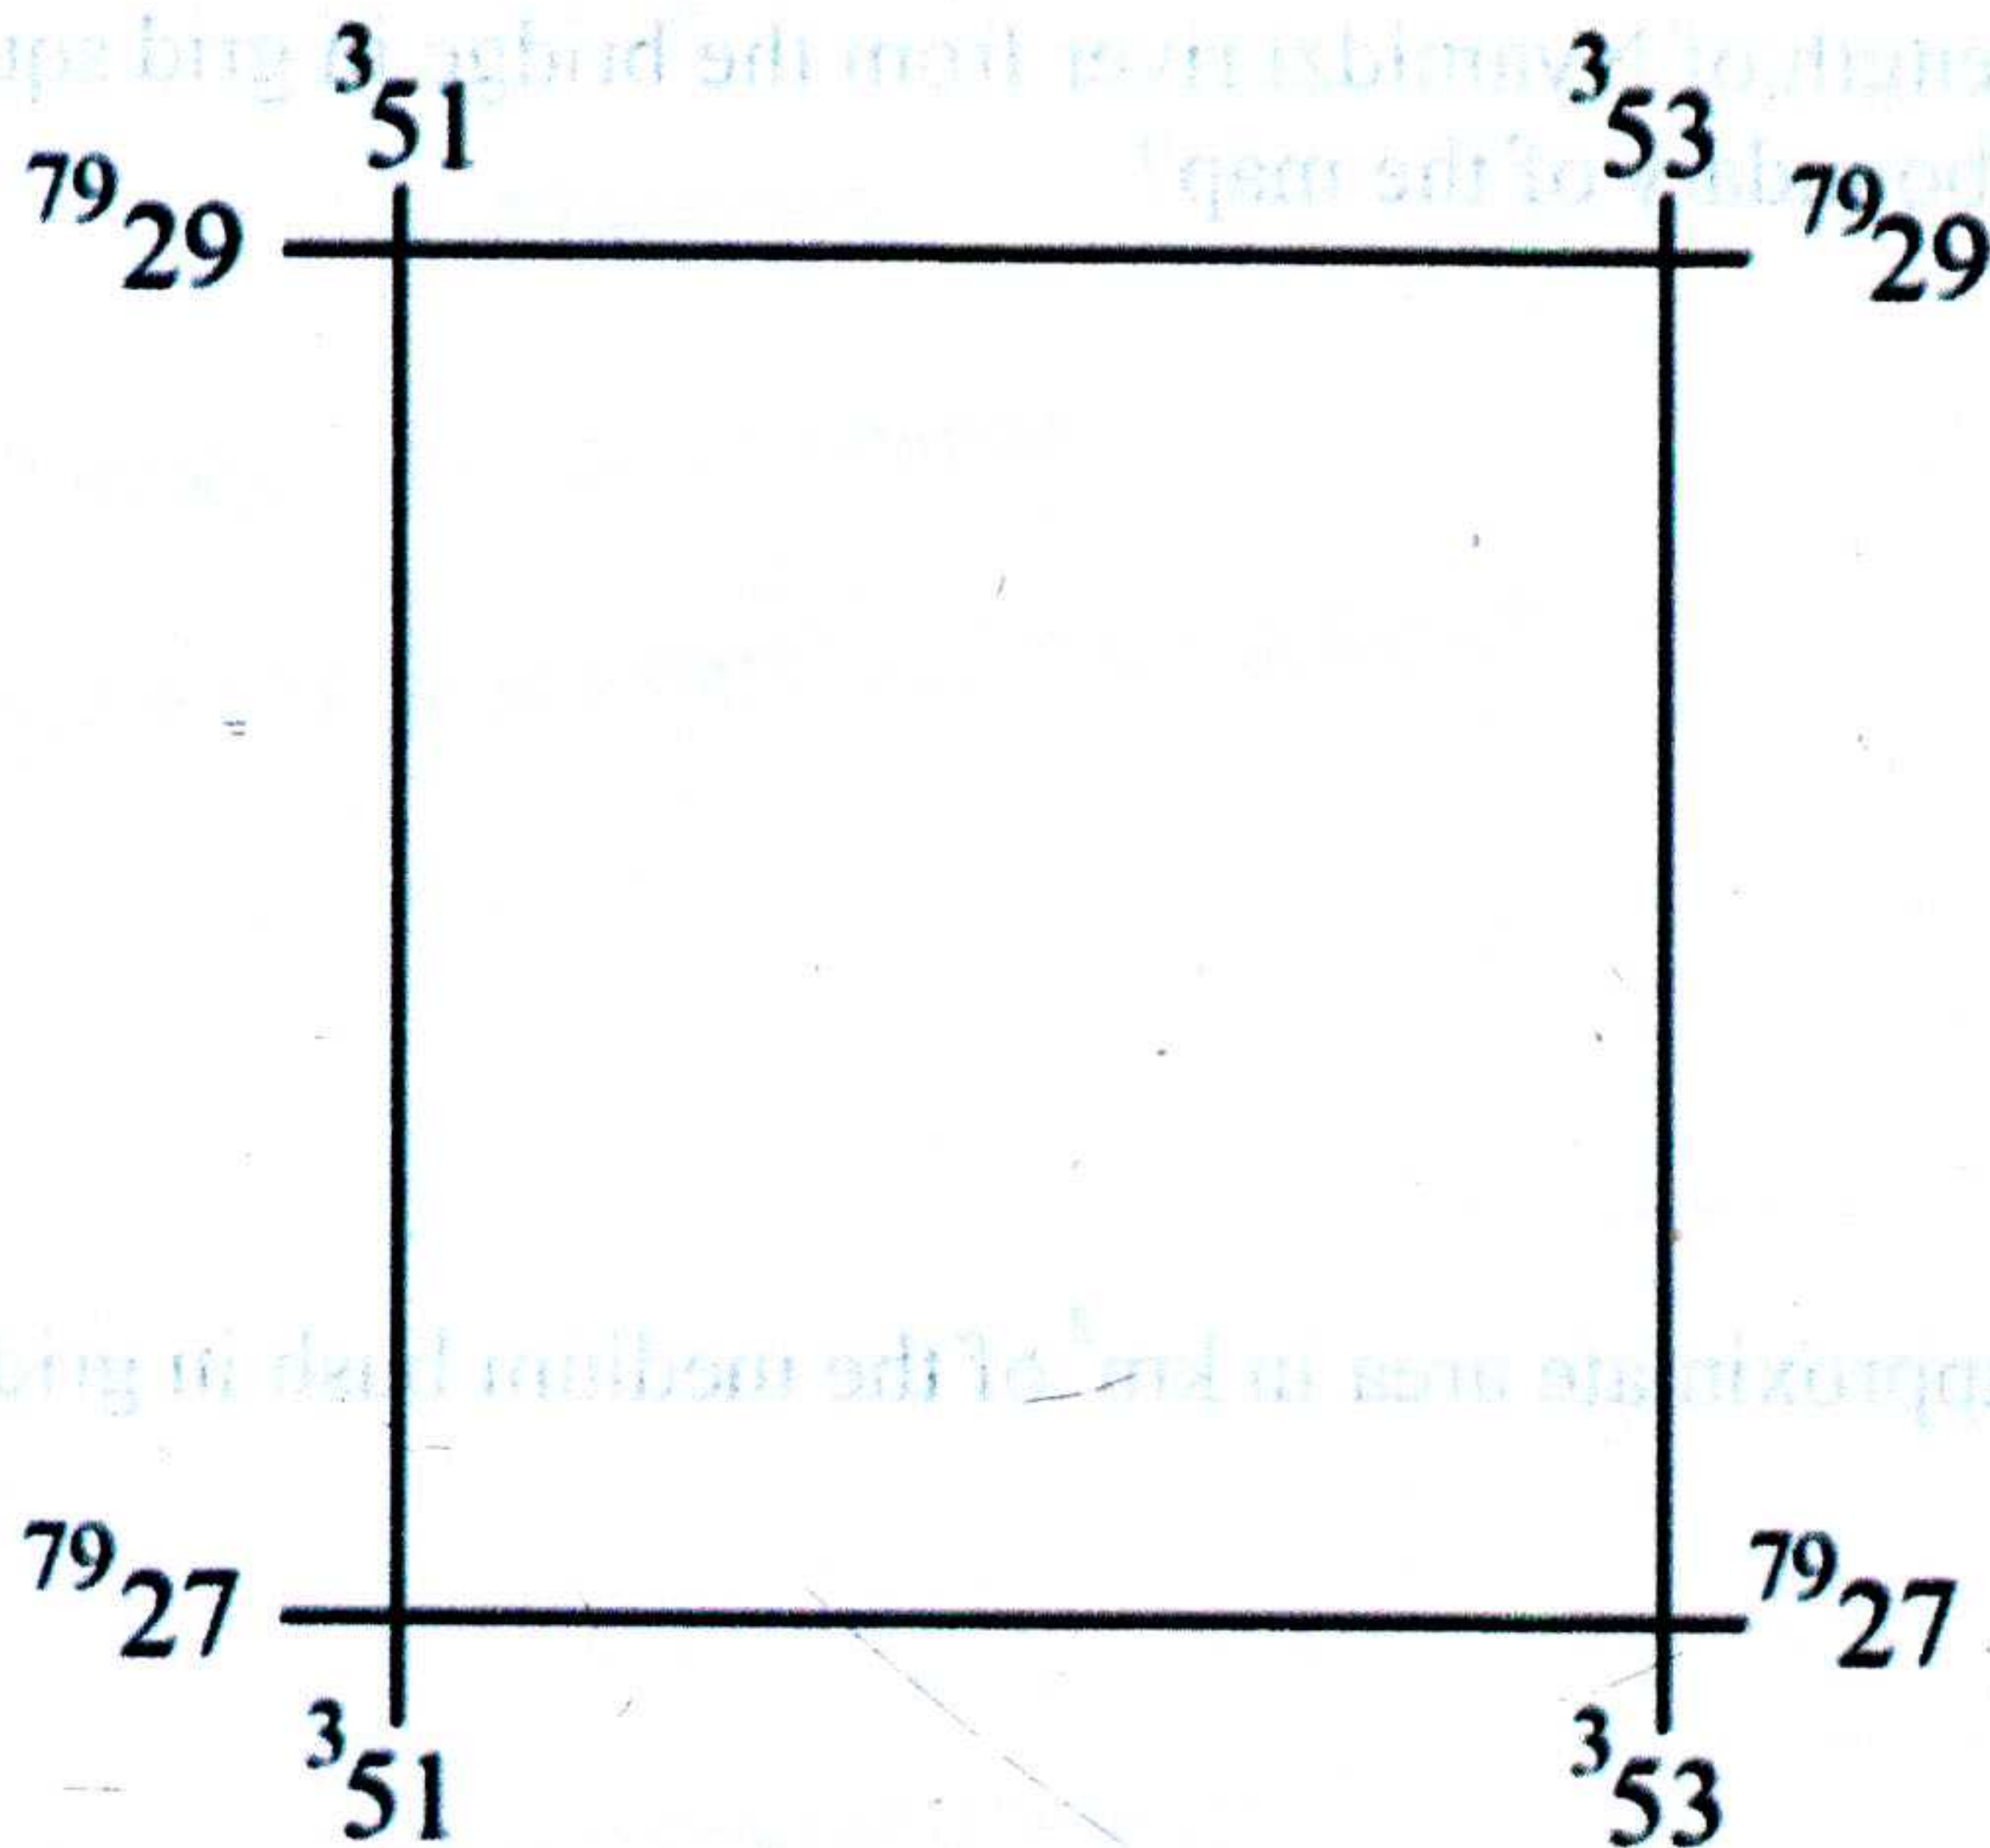

- 1 In which grid square would you find a rapid and several huts?
 - A 3450007934000
 - B 3450007931000
 - C 3440007932000
 - D 3450007932000
- 2 What feature is located at grid point 3573007935500?
 - A hut
 - B dip tank
 - C building
 - D bridge
- 3 The approximate altitude of the dip tank in grid square 3640007940000 is
 - A 1300m.
 - B 1310m.
 - C 1320m.
 - D 1330m.
- 4 What is the general direction of flow of Kurongonora river in grid square 3630007938000?
 - A north
 - B east
 - C north east
 - D south west

- 5 What is the length of Nyamidzi river from the bridge in grid square 3540007927000 up to the southern boundary of the map?
- A 1,8 km
 - B 1,5 km
 - C 1,2 km
 - D 1,0 km
- 6 What is the approximate area in km^2 of the medium bush in grid square 3600007930000?
- A 0,8
 - B 0,3
 - C 1,0
 - D 0,5
- 7 What is the bearing of the dam in grid square 3460007940000 from the one in square 3440007941000?
- A 70°
 - B 110°
 - C 250°
 - D 290°

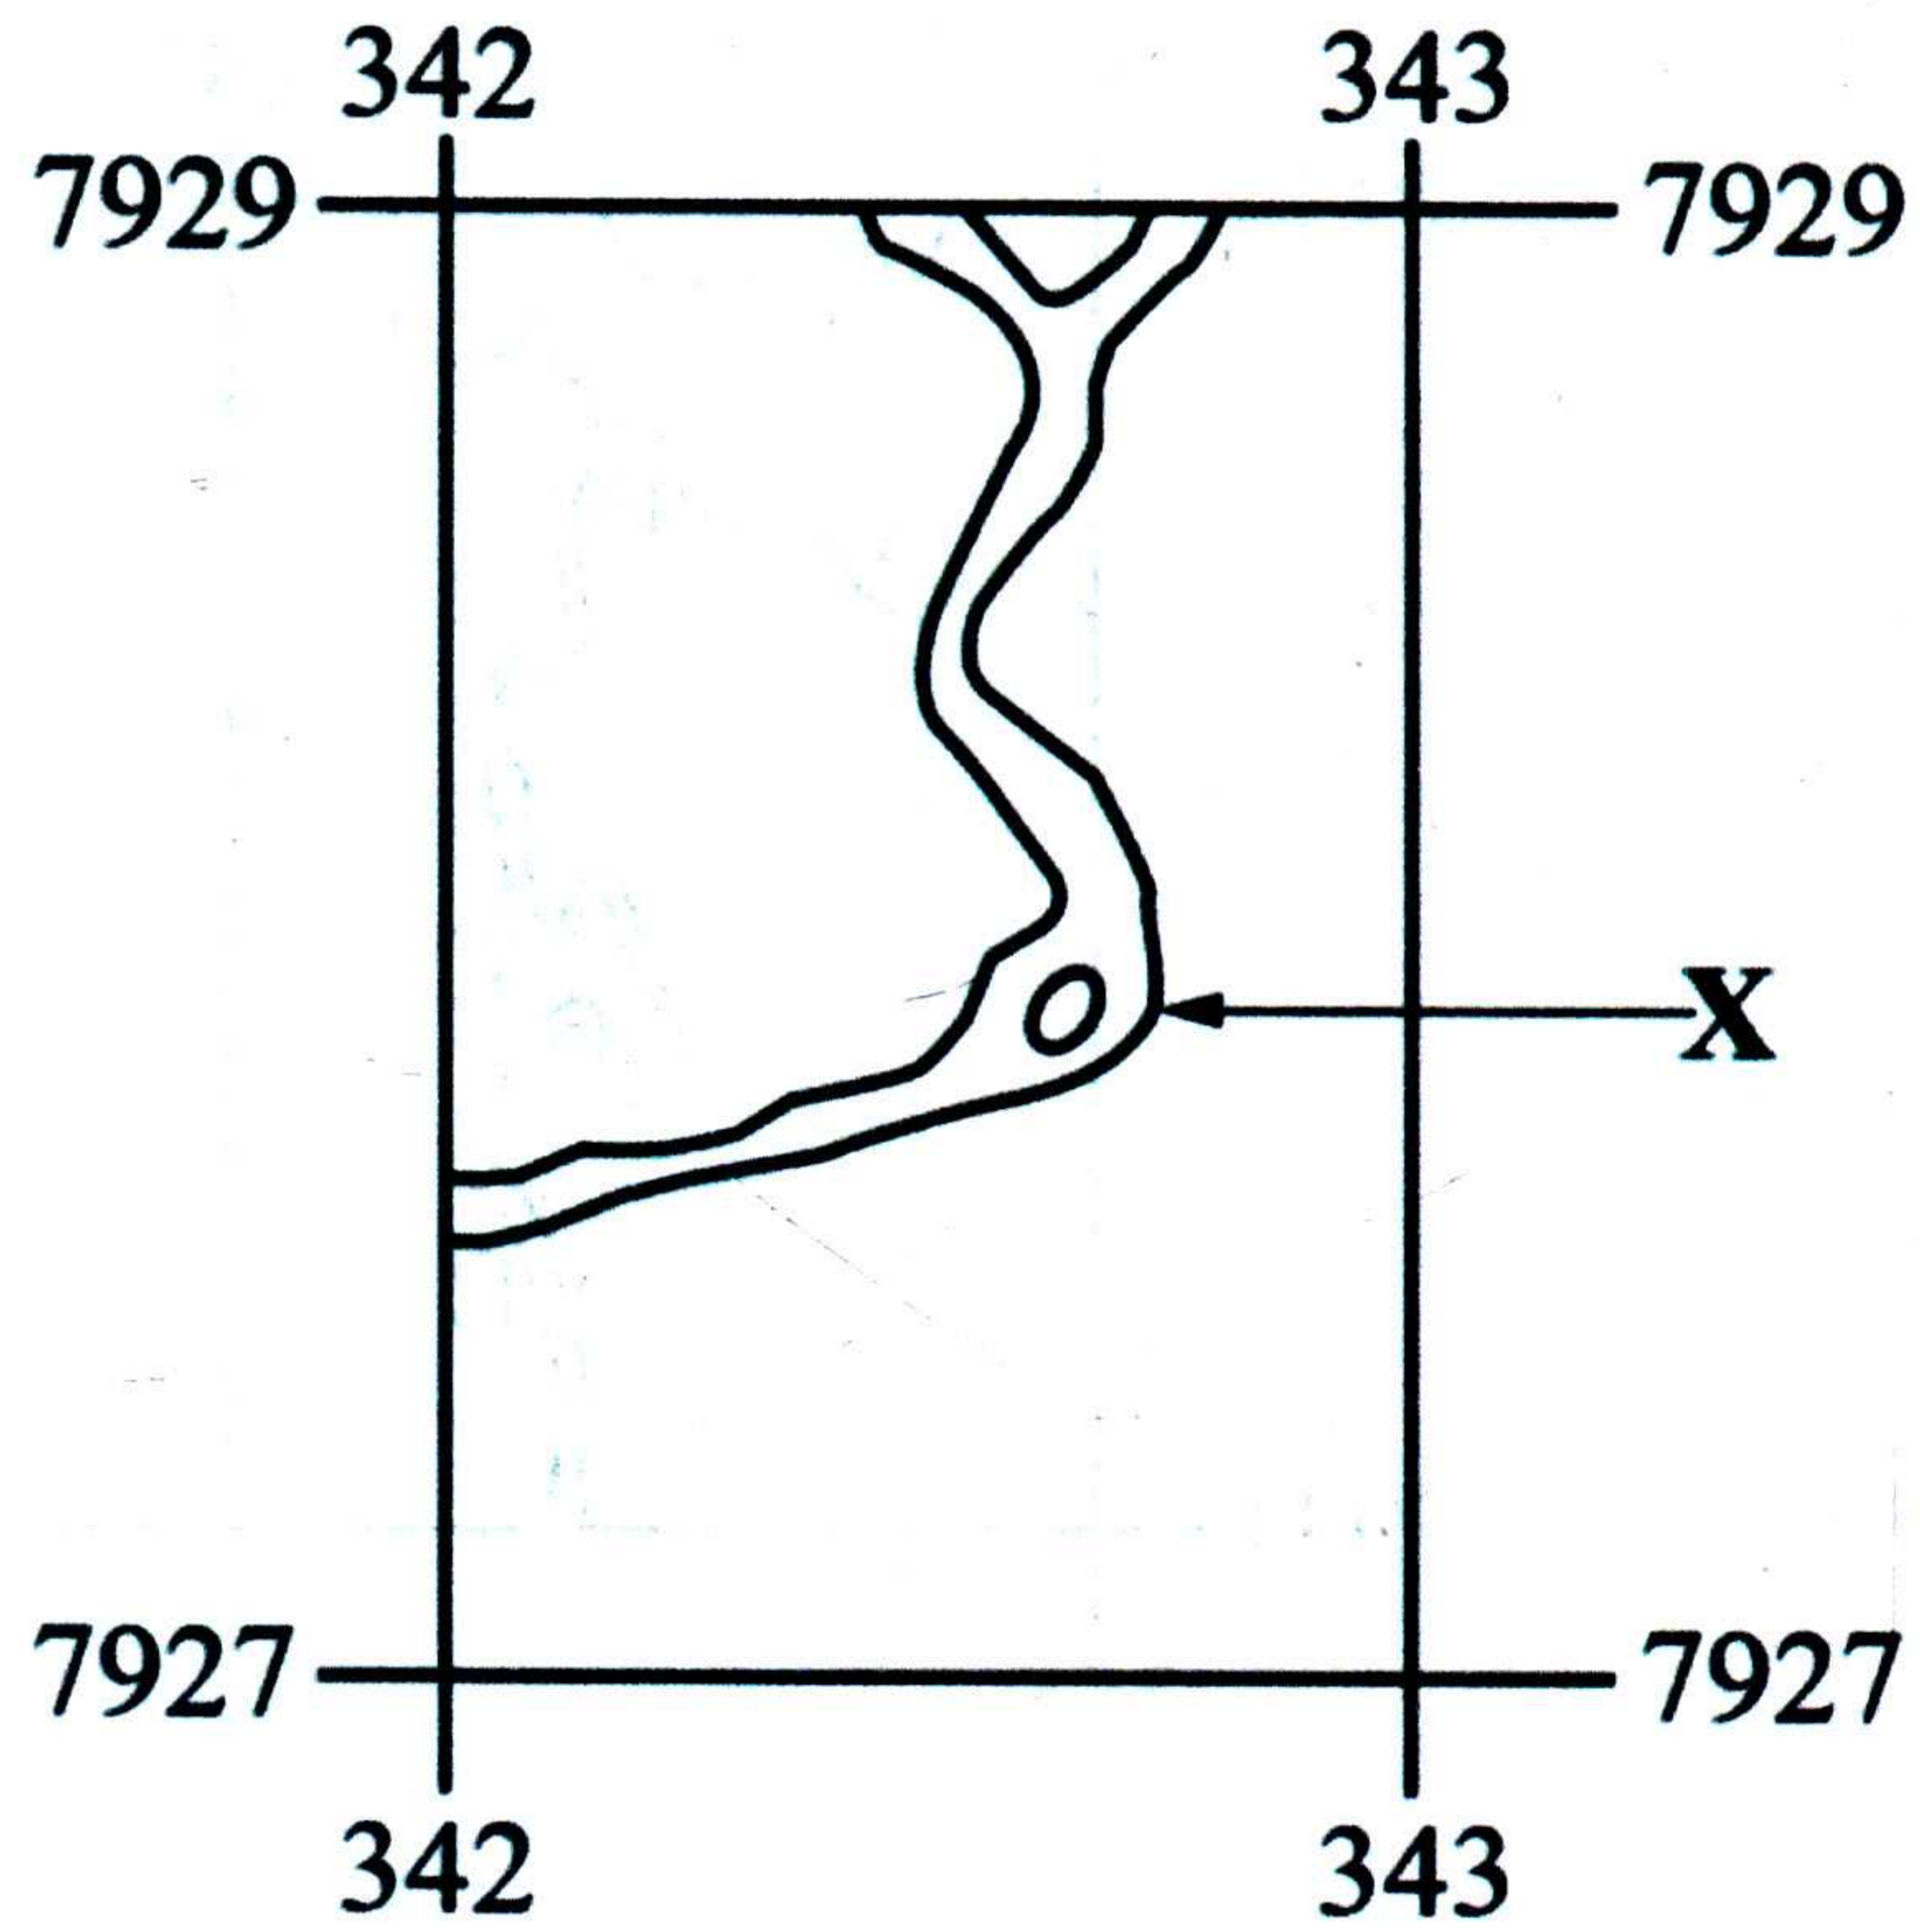

8

The slopes of Wedza mountains in the area shown can be described as

- A uniform.
- B undulating.
- C steep.
- D gentle.

9

The drainage feature marked X is a

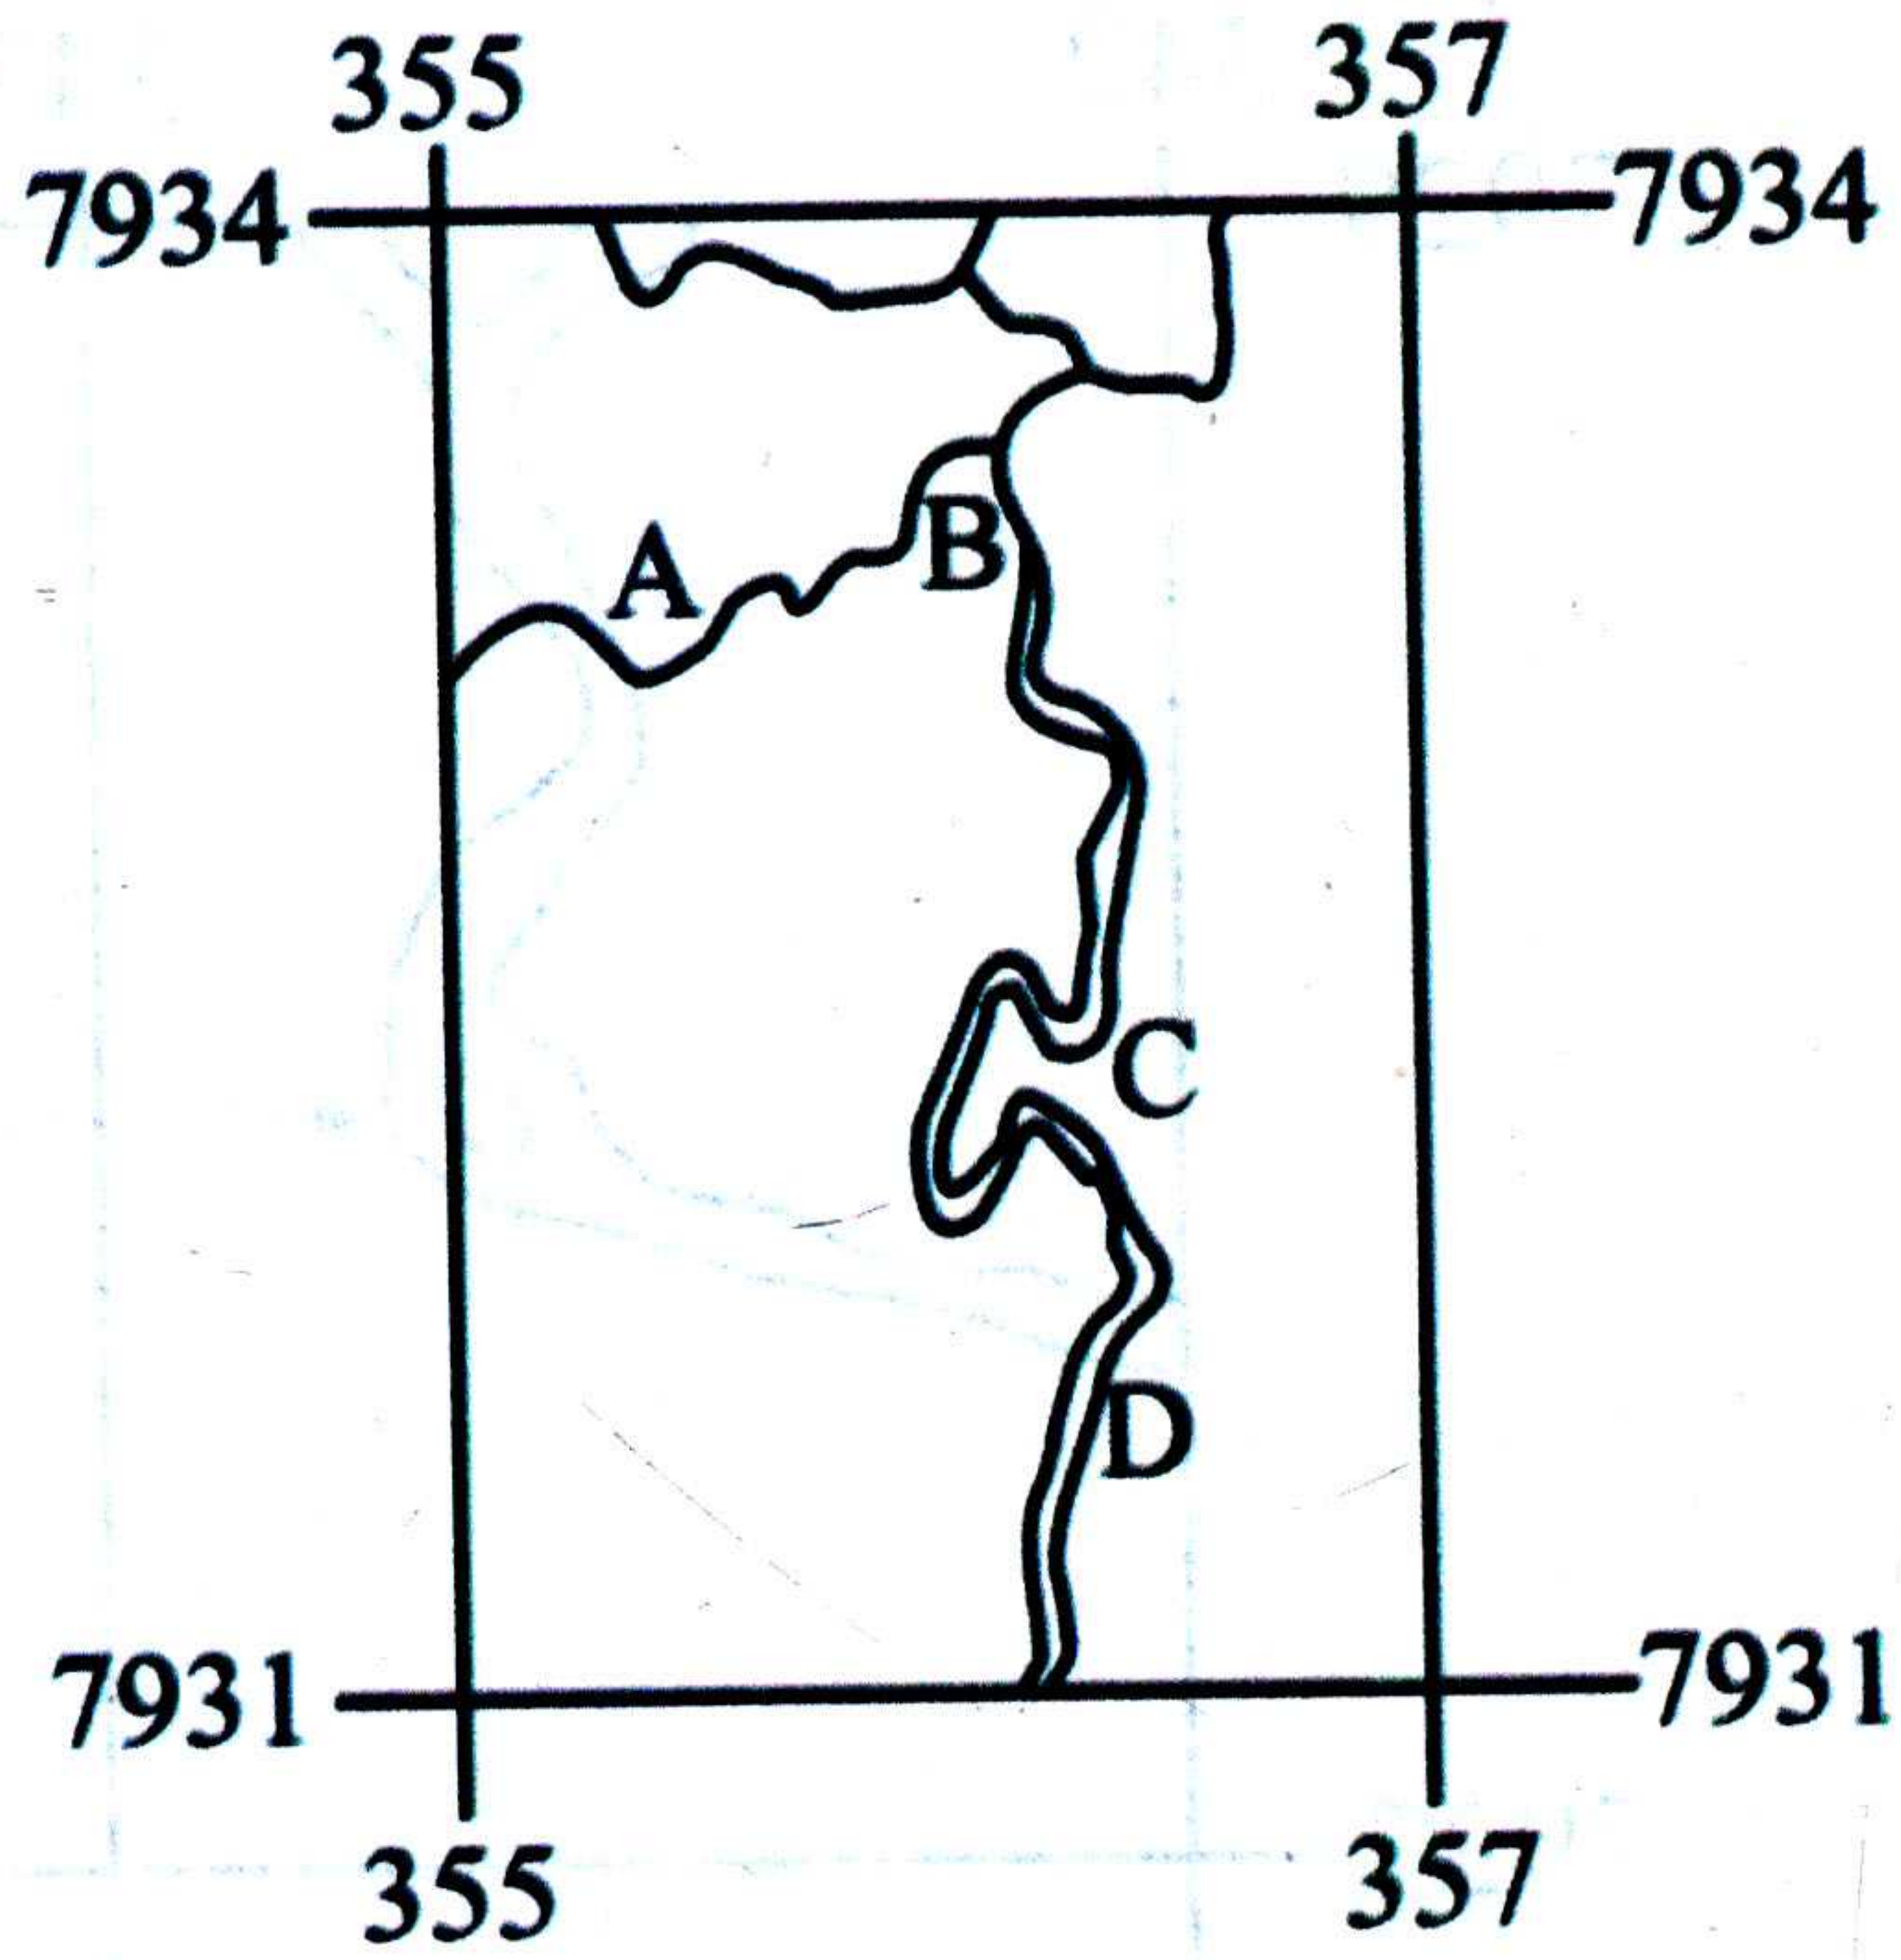

- A braided channel.
- B deferred junction.
- C delta.
- D rapid.

10 The dominant human activity in grid square 3420007934000 is

- A cultivation.
- B fruit growing.
- C fishing.
- D forestry.

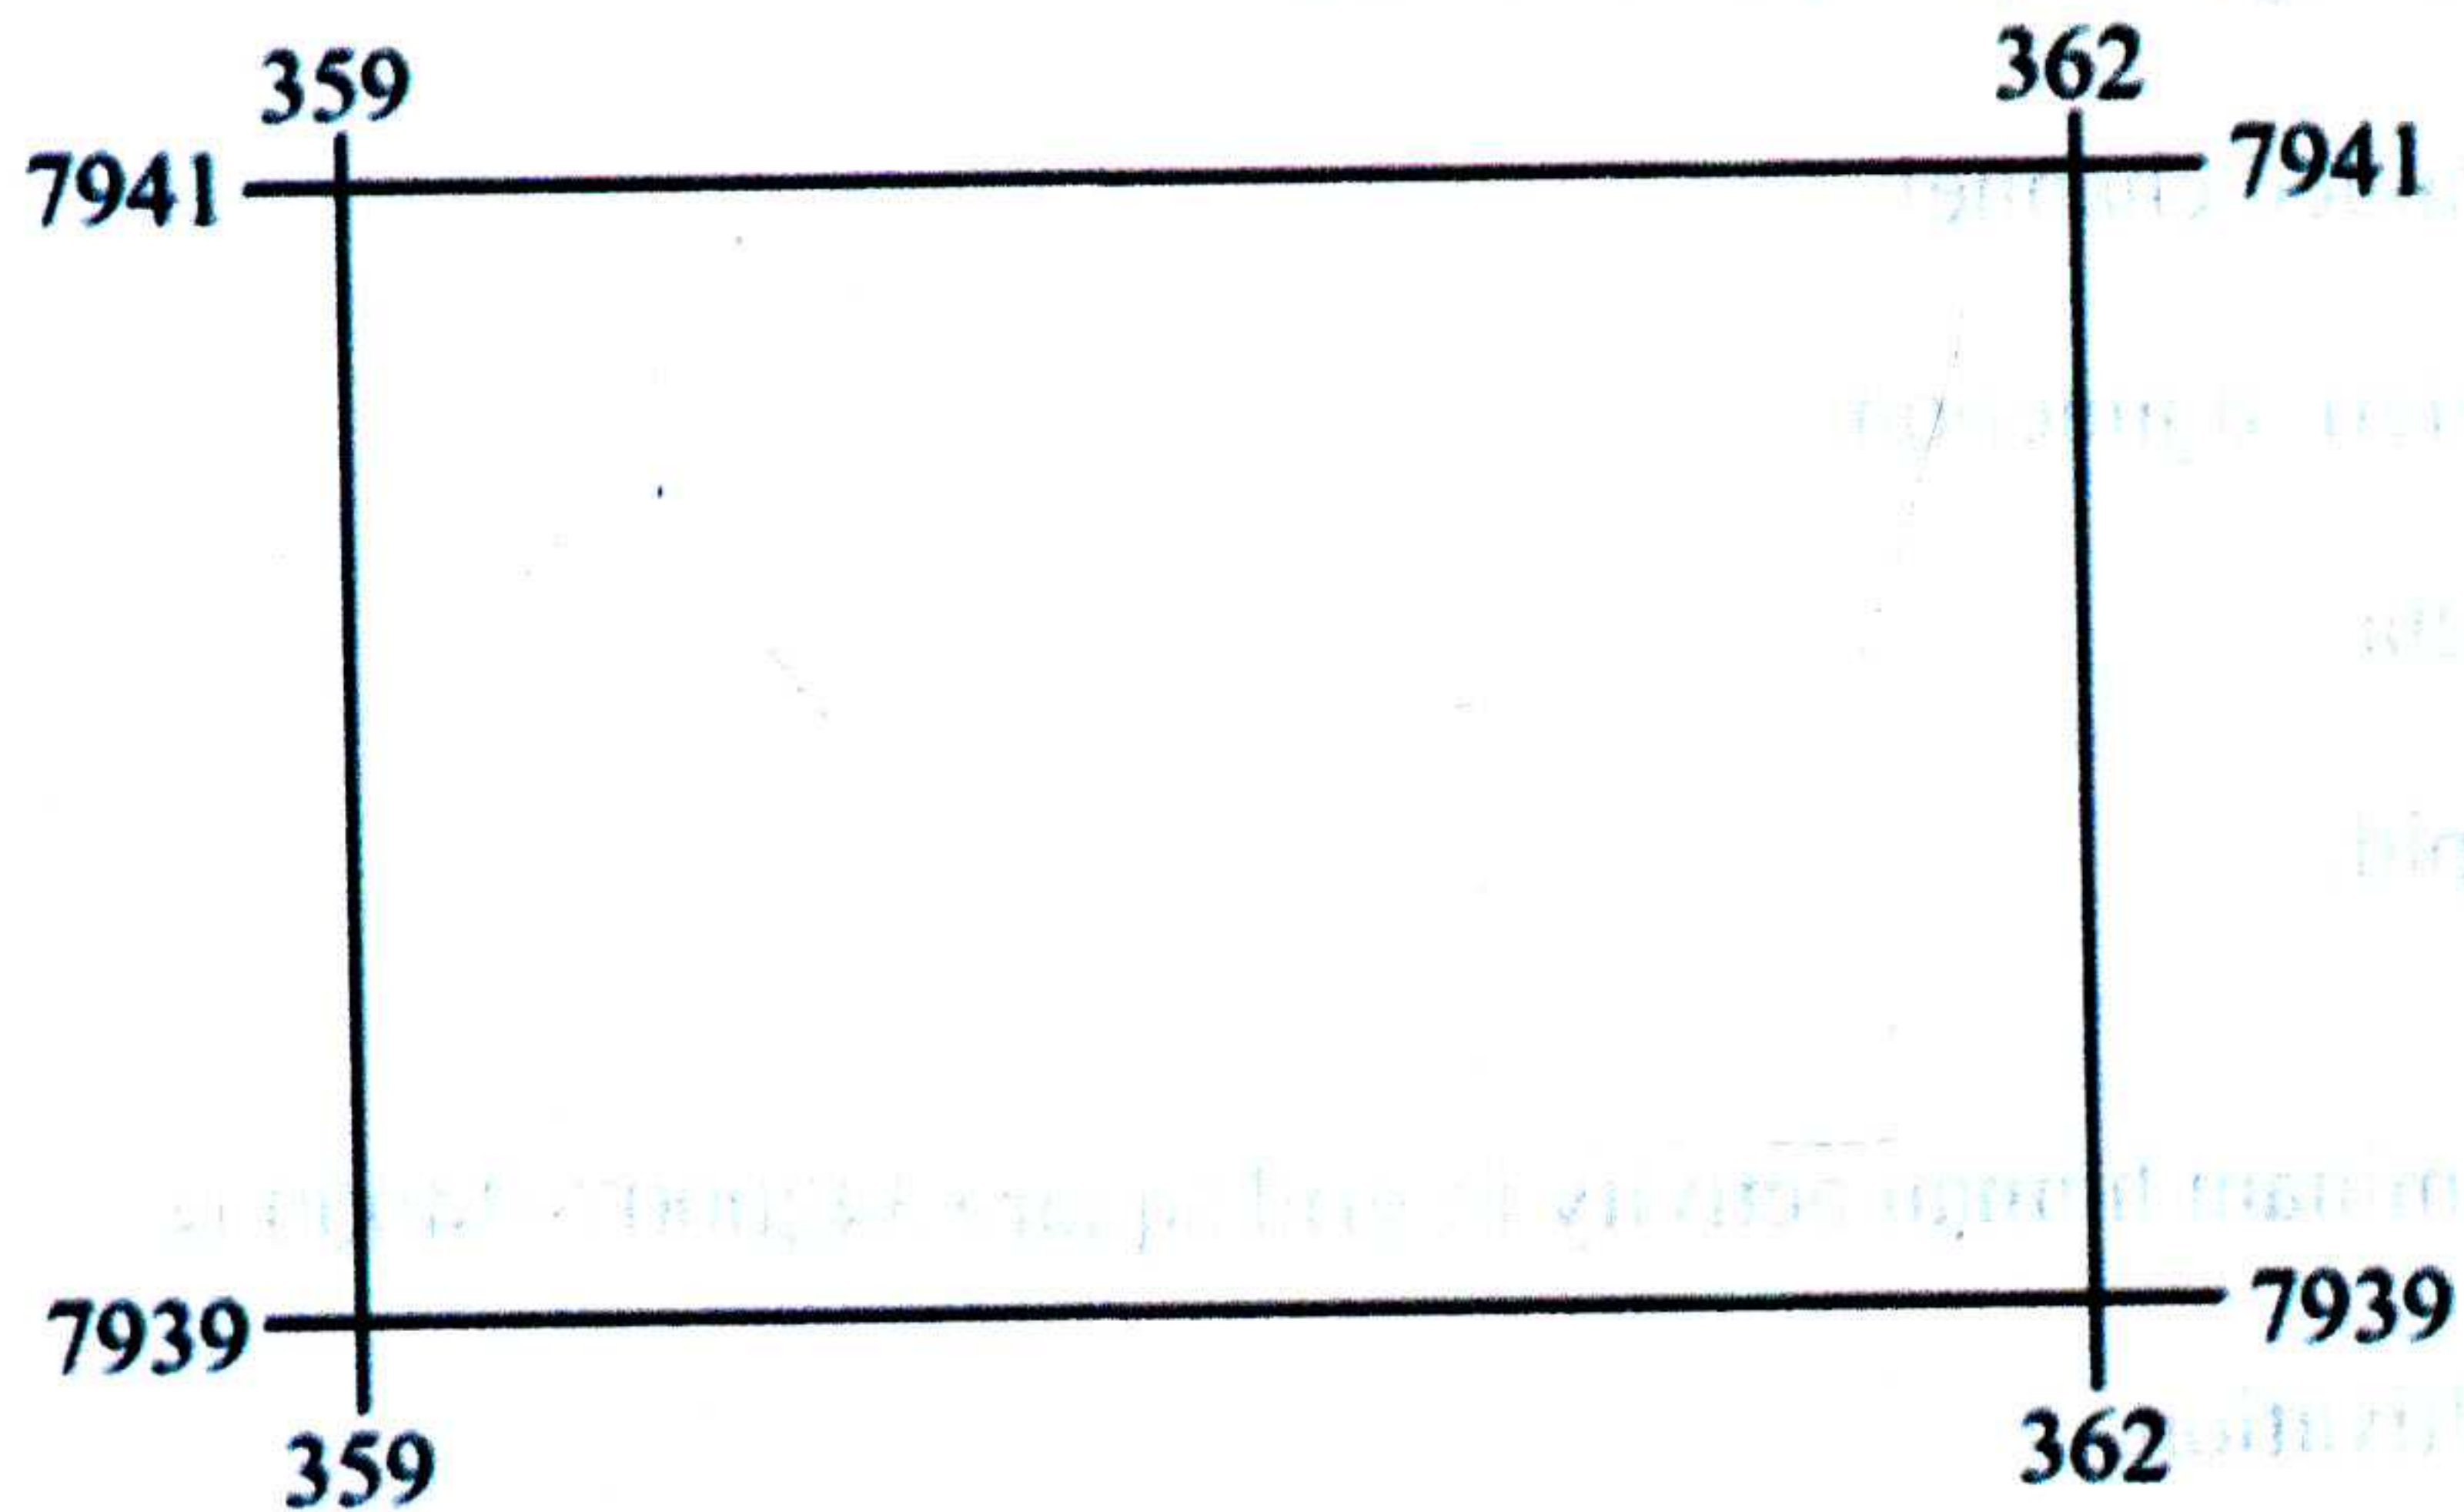

11

What is the most ideal site for locating a dam, A, B, C or D?

12

Settlements in the area shown were established due to the

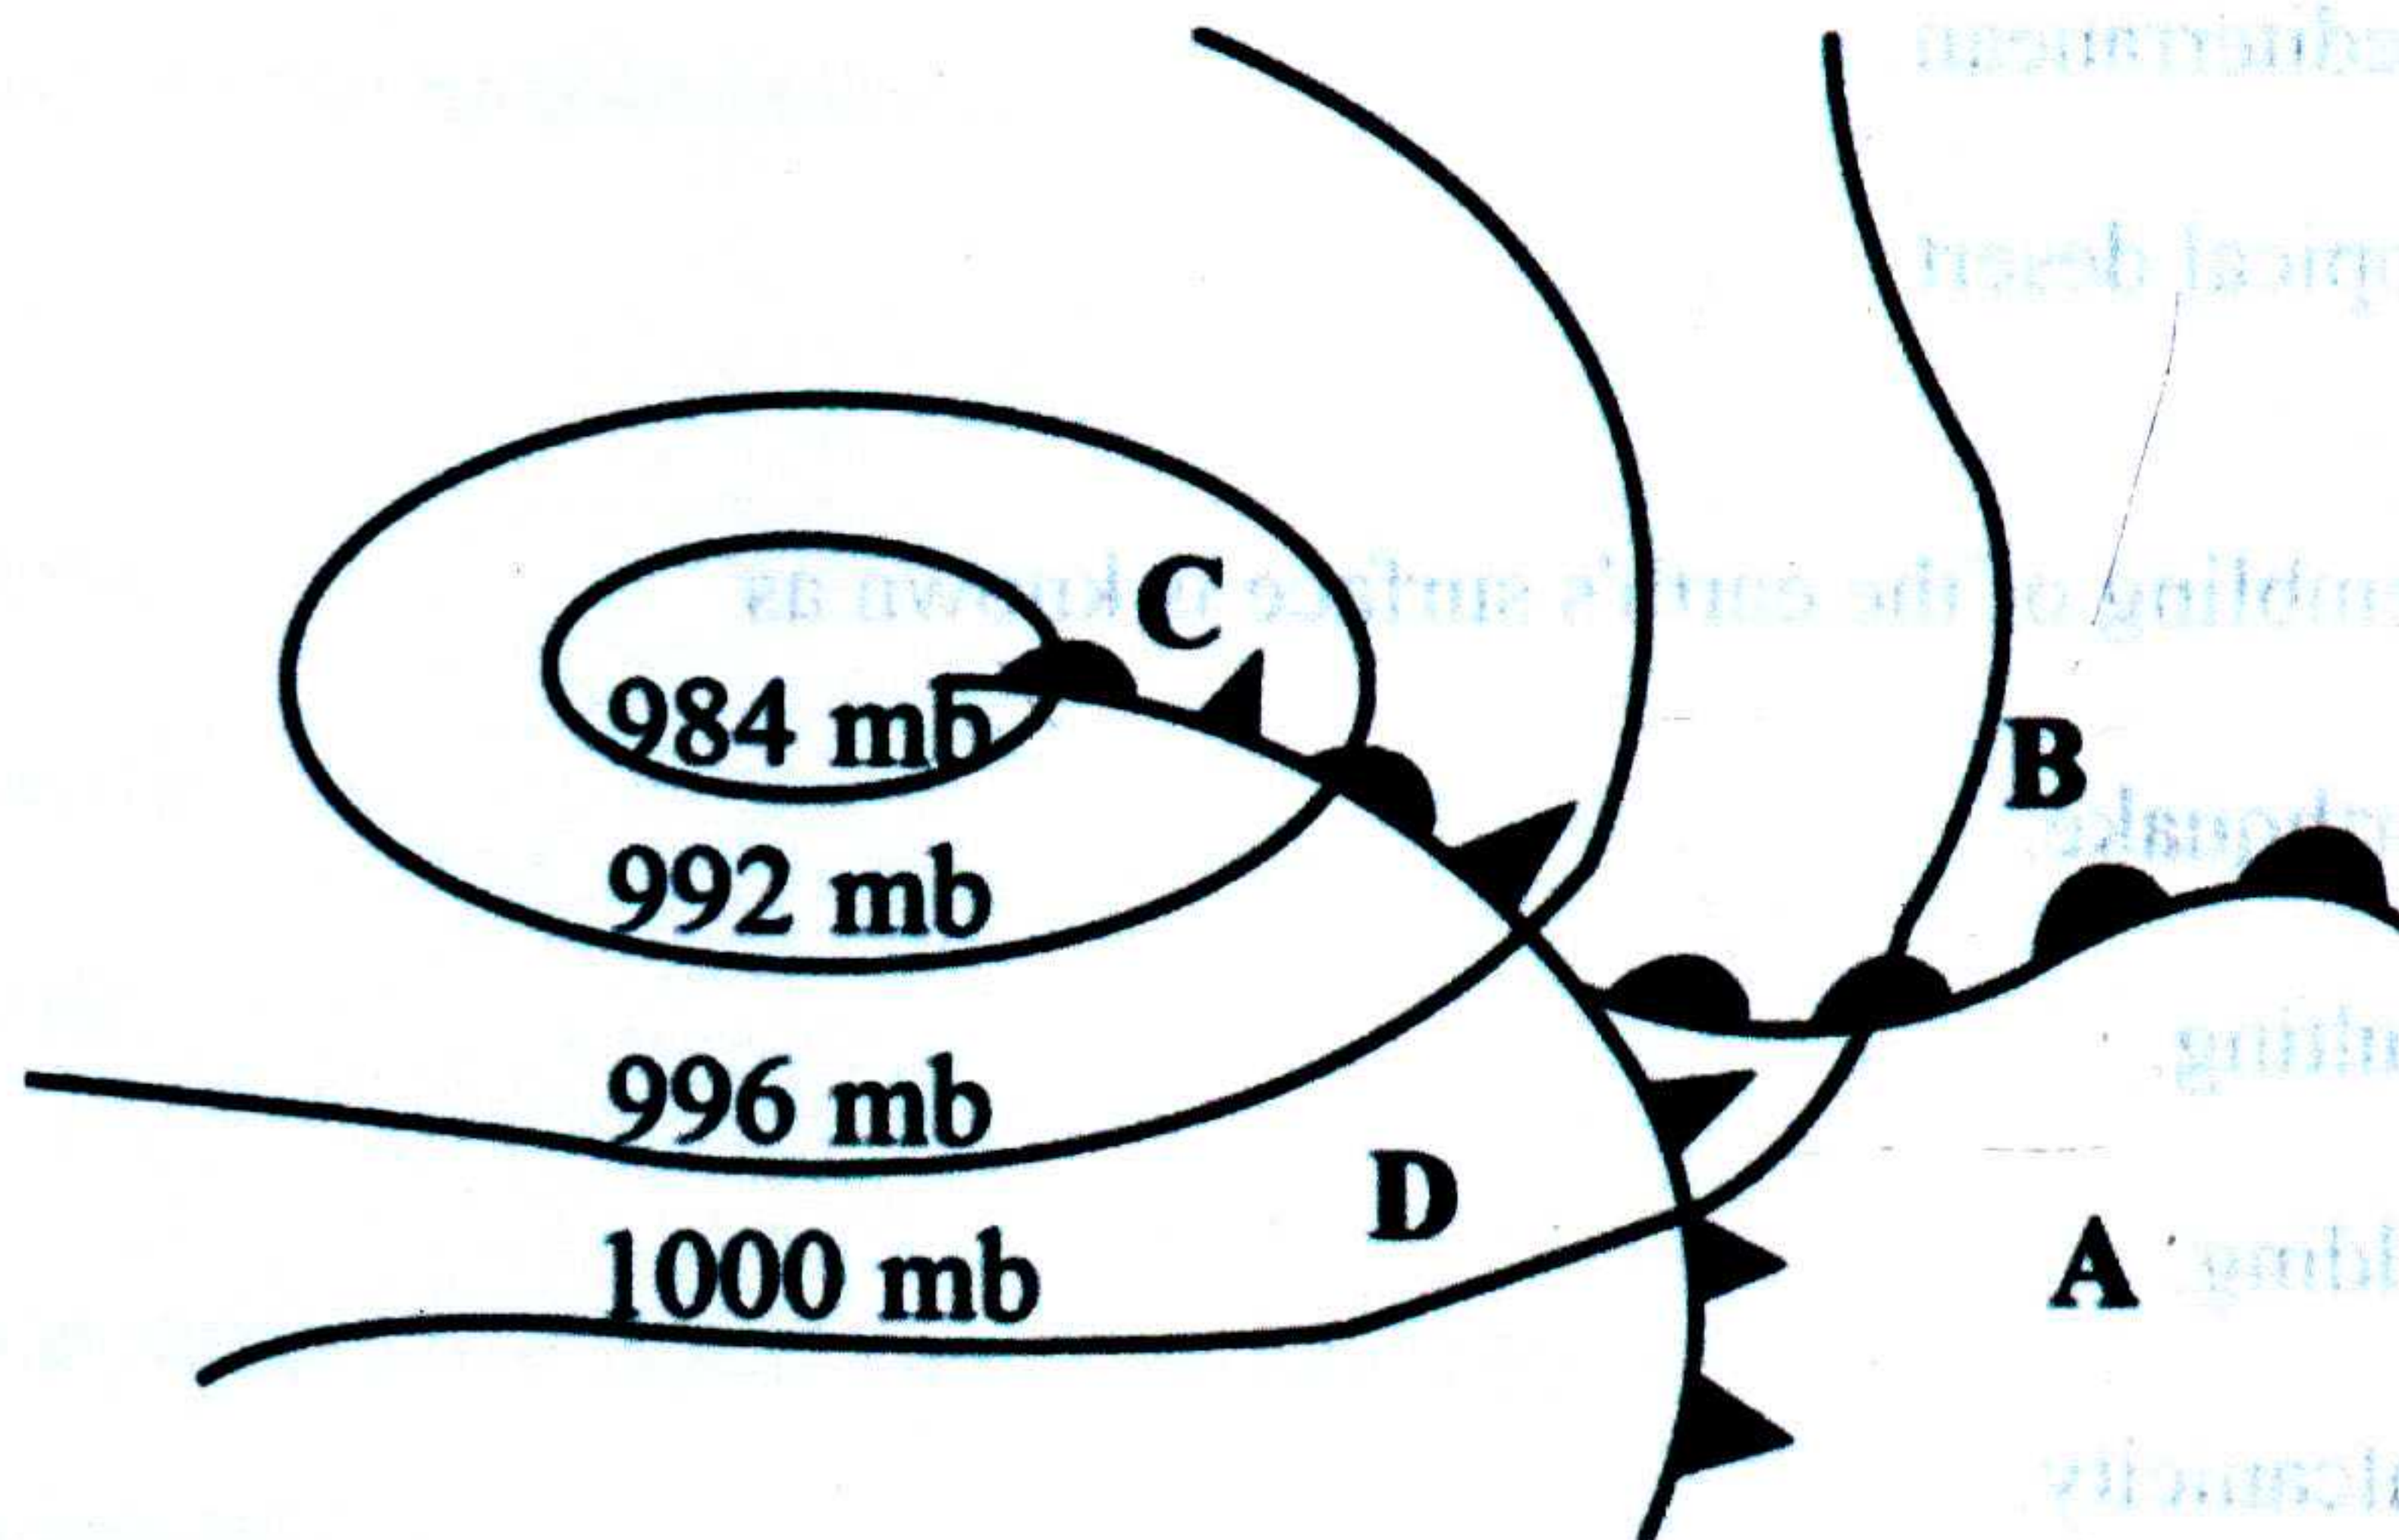

- A accessibility of the area.
- B availability of water.
- C availability of pasture.
- D presence of flat land.

Physical environment

- 13 During a thunderstorm people should
- A stand under trees in a group.
 - B walk on a hilly area.
 - C shelter under shorter trees in a group.
 - D walk on a flat field.
- 14 Why are hot deserts located at the western sides of continents?
- A moist offshore winds blow
 - B effect of ocean currents
 - C due to cyclonic conditions
 - D due to anticyclonic conditions

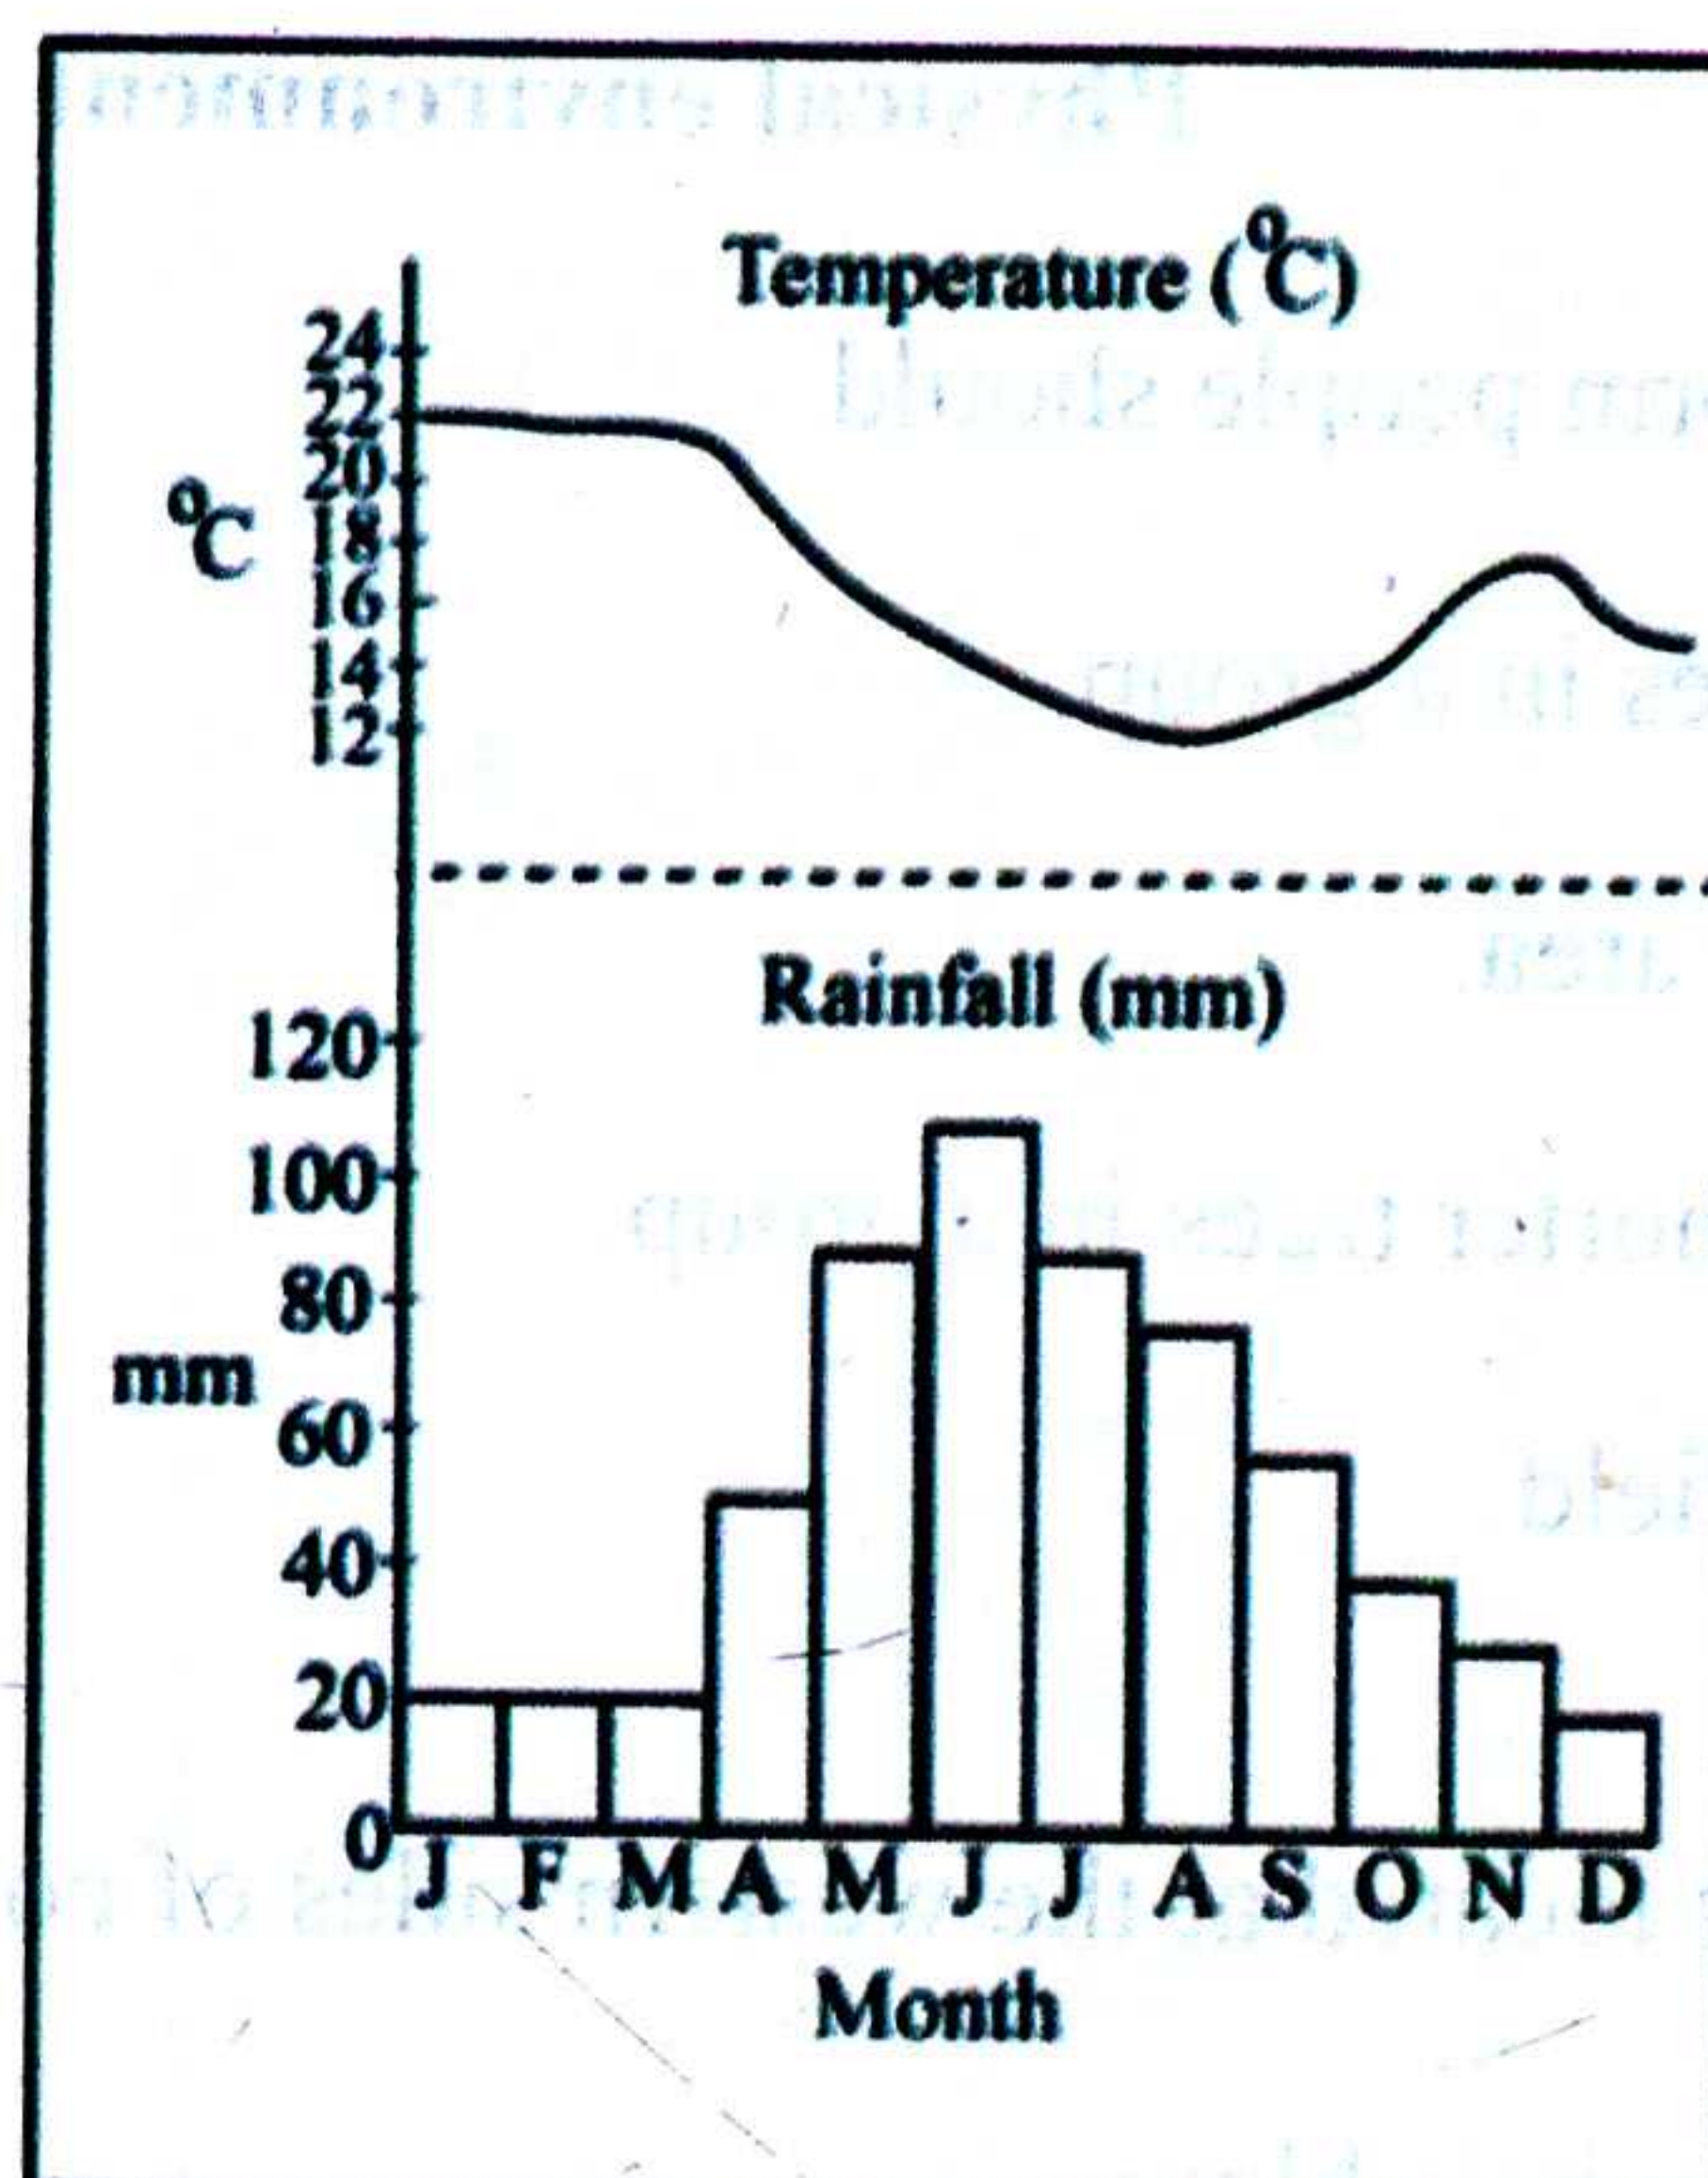

15

Which of the sites A, B, C or D is associated with clear, warm and fine weather conditions?

16

The climate represented by the graphs above is

- A tropical continental.
- B equatorial.
- C mediterranean.
- D tropical desert.

17 The trembling of the earth's surface is known as

- A earthquake.
- B faulting.
- C folding.
- D vulcanicity.

18 Which weathering process involves the peeling of rocks in thin layers due to repeated heating and cooling?

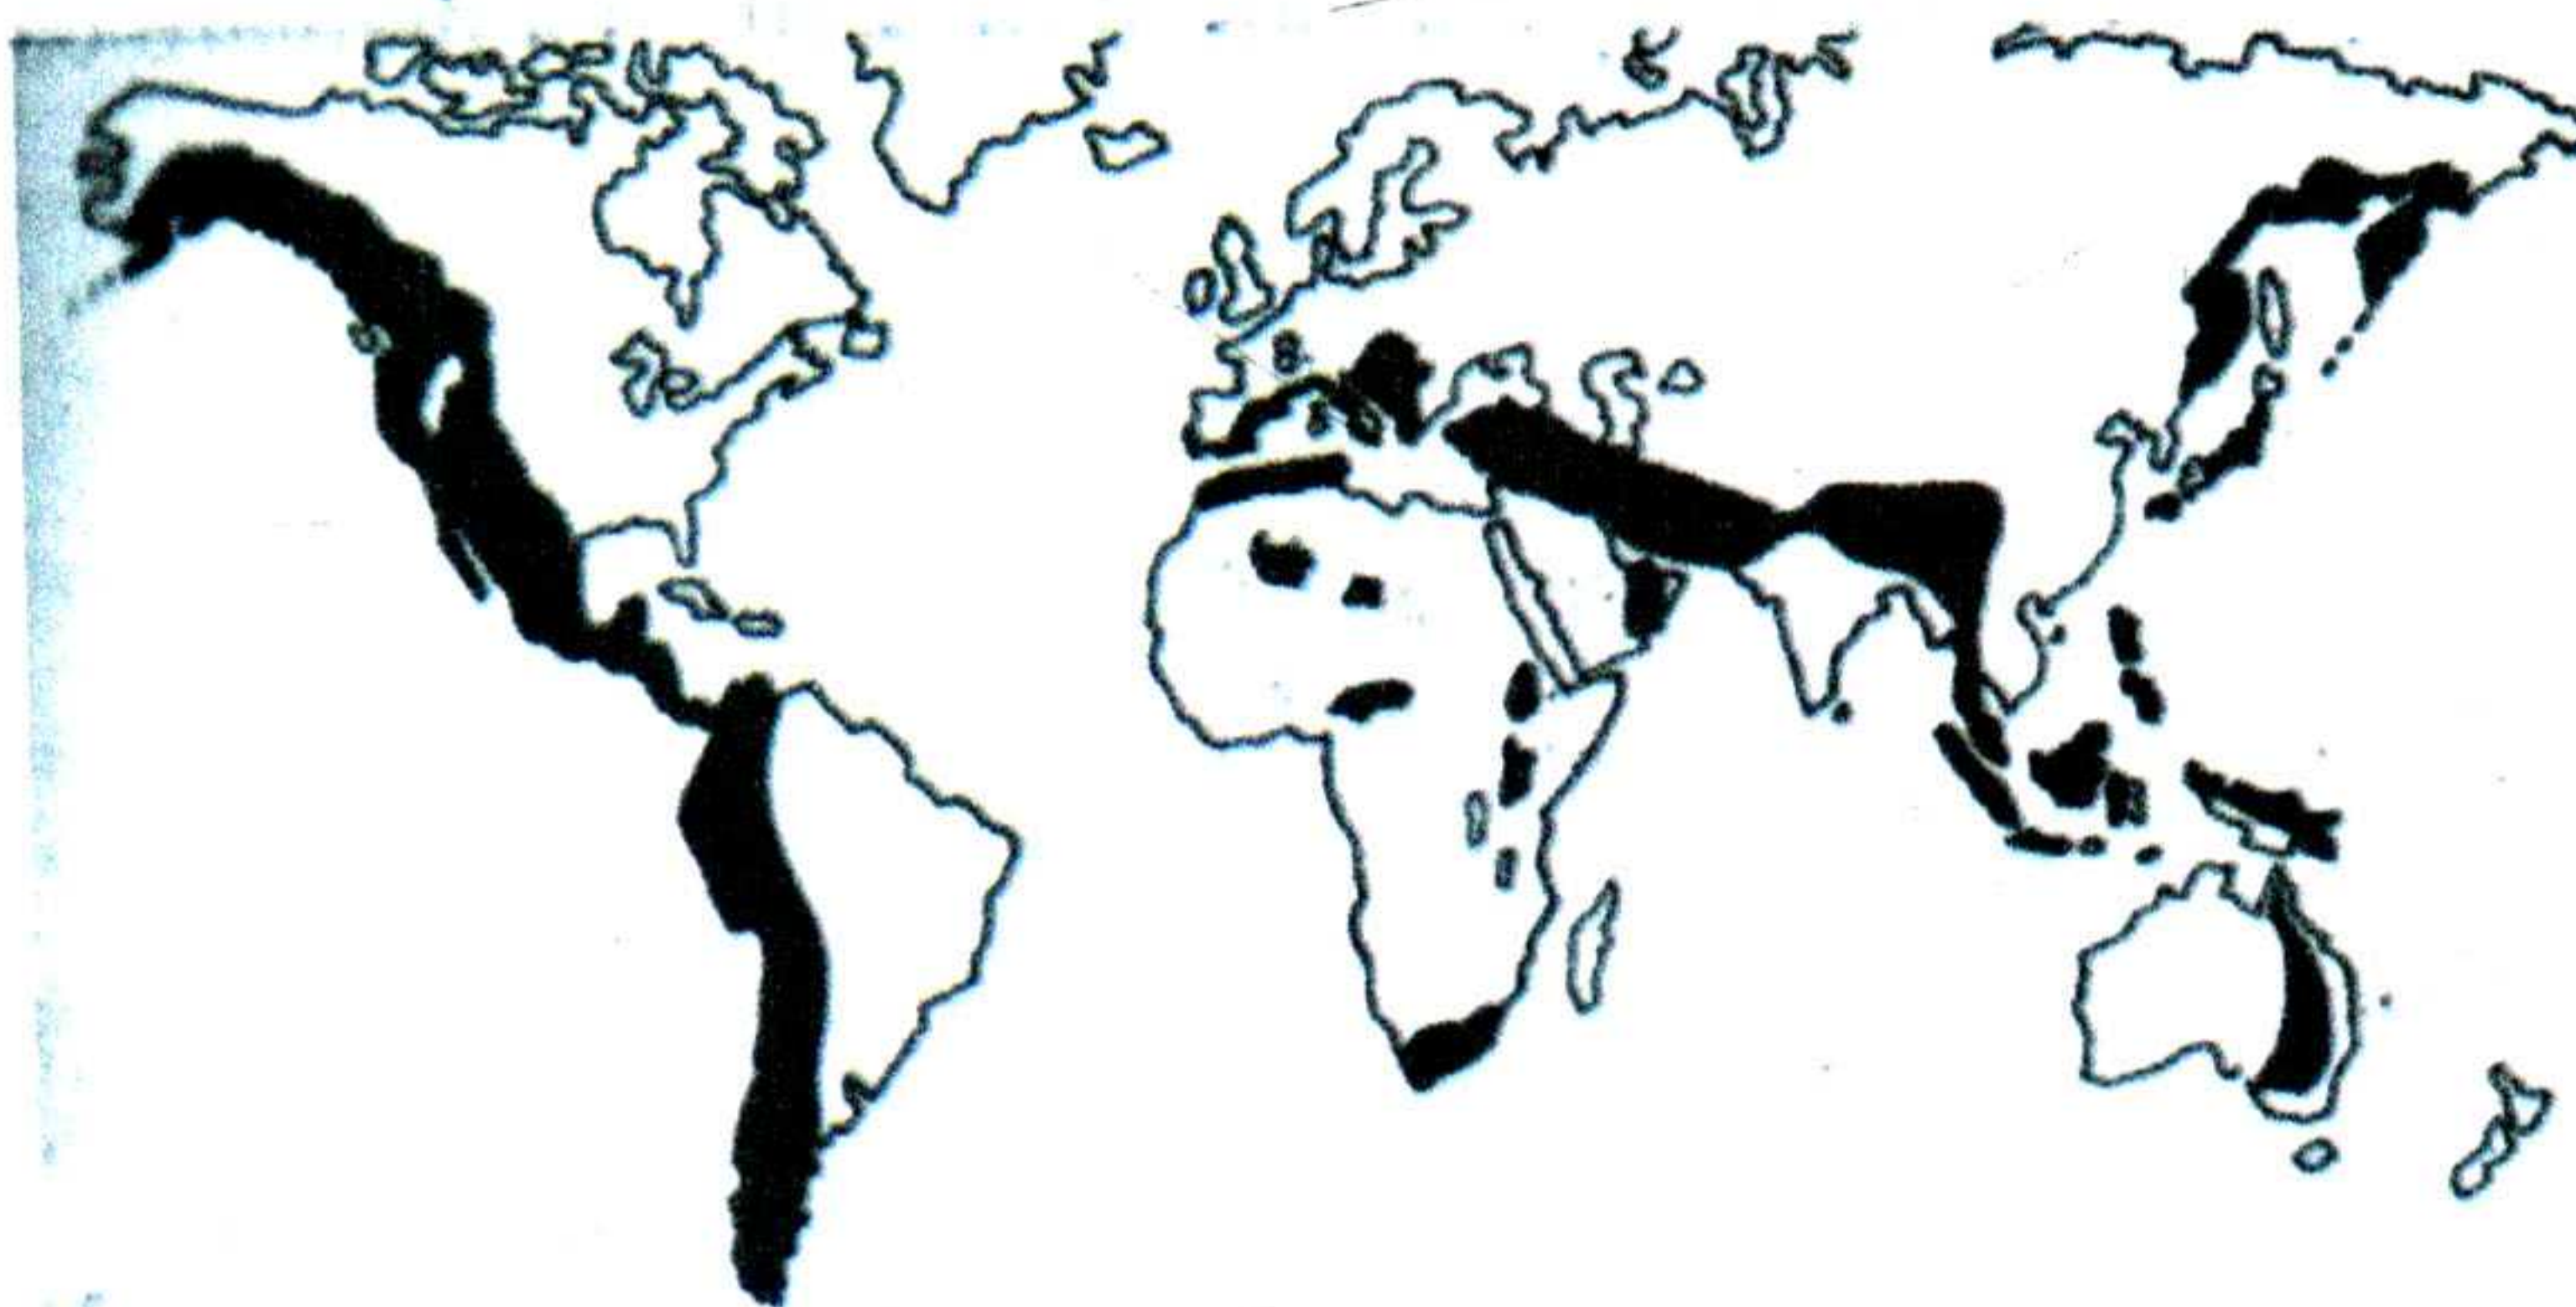

- A block disintegration
- B freeze- thaw
- C plant root action
- D exfoliation

19 Faulting causes the formation of a

- A Block mountain.
- B Fold mountain.
- C Anticlinal hill.
- D Synclinal valley.

20

Areas shaded indicate the distribution of

- A volcanoes.
 - B fold mountains.
 - C block mountains.
 - D ancient shields.
- 21 The impact of dust storms in a desert can be reduced by
- A wearing light clothes.
 - B wearing glasses.
 - C installing fans.
 - D using veils.

- 22** Which activity shows sustainable utilisation of wetlands?
- A** Constructing houses
 - B** Mining
 - C** Video filming
 - D** Waste disposal
- 23** Lines joining areas of the same amount of rainfall on a map are called
- A** isobars.
 - B** isohels.
 - C** isohyets.
 - D** isotherms.

Economic Geography

24 Which one is an example of biodegradable waste?

- A Hair extension
- B Iron
- C Glass
- D Cardboard

25 Which one is an example of indigenous hardwood?

- A Pine
- B Mahogany
- C Eucalyptus
- D Baobab

26 The Table below shows fish catches in East Africa in 1980.

FISH CATCHES IN EAST AFRICA 1980

	KENYA	TANZANIA	UGANDA
MARINE	6	37	0
INLAND	56	-	166
TOTAL	62	227	166

What is Tanzania's inland catch?

- A 417
- B 264
- C 222
- D 190

27

The type of power produced in the diagram above is

- A hydroelectricity.
- B nuclear.
- C geothermal.
- D solar.

28 Which one is a non renewable resource?

- A Tree
- B Uranium
- C Water
- D Wind

29 How is sustainable use of mineral resources achieved?

- A Use of machinery
- B Establishing many mills
- C Substitution of minerals
- D Use of cheap labour

- 30** The problem caused by informal industries is
- A** use of inexpensive machinery.
 - B** provision of cheap goods.
 - C** environmental degradation.
 - D** use of local raw materials.
- 31** Which is an example of a foot loose industry?
- A** Repairing cellphones
 - B** Iron smelting
 - C** Cotton ginning
 - D** Tea processing
- 32** Which is a human cause of food shortages?
- A** Soil exhaustion
 - B** Food riots
 - C** Disease outbreak
 - D** Shortage of transport
- 33** Which type of tenure gives the owner the right to use of land over a specific period?
- A** Communal
 - B** State owned
 - C** Free hold
 - D** Lease hold

Environmental management, Population & Settlement, Transport and Trade

34 What is a sphere of influence?

- A A recently developed area
- B The number of goods and services
- C Competition from other settlements
- D An area served by a settlement

35 Land pollution in communities can be reduced by

- A use of electric cars.
- B use of green fuels.
- C introducing carbon tax.
- D putting bins.

36 An economic impact of population decline is

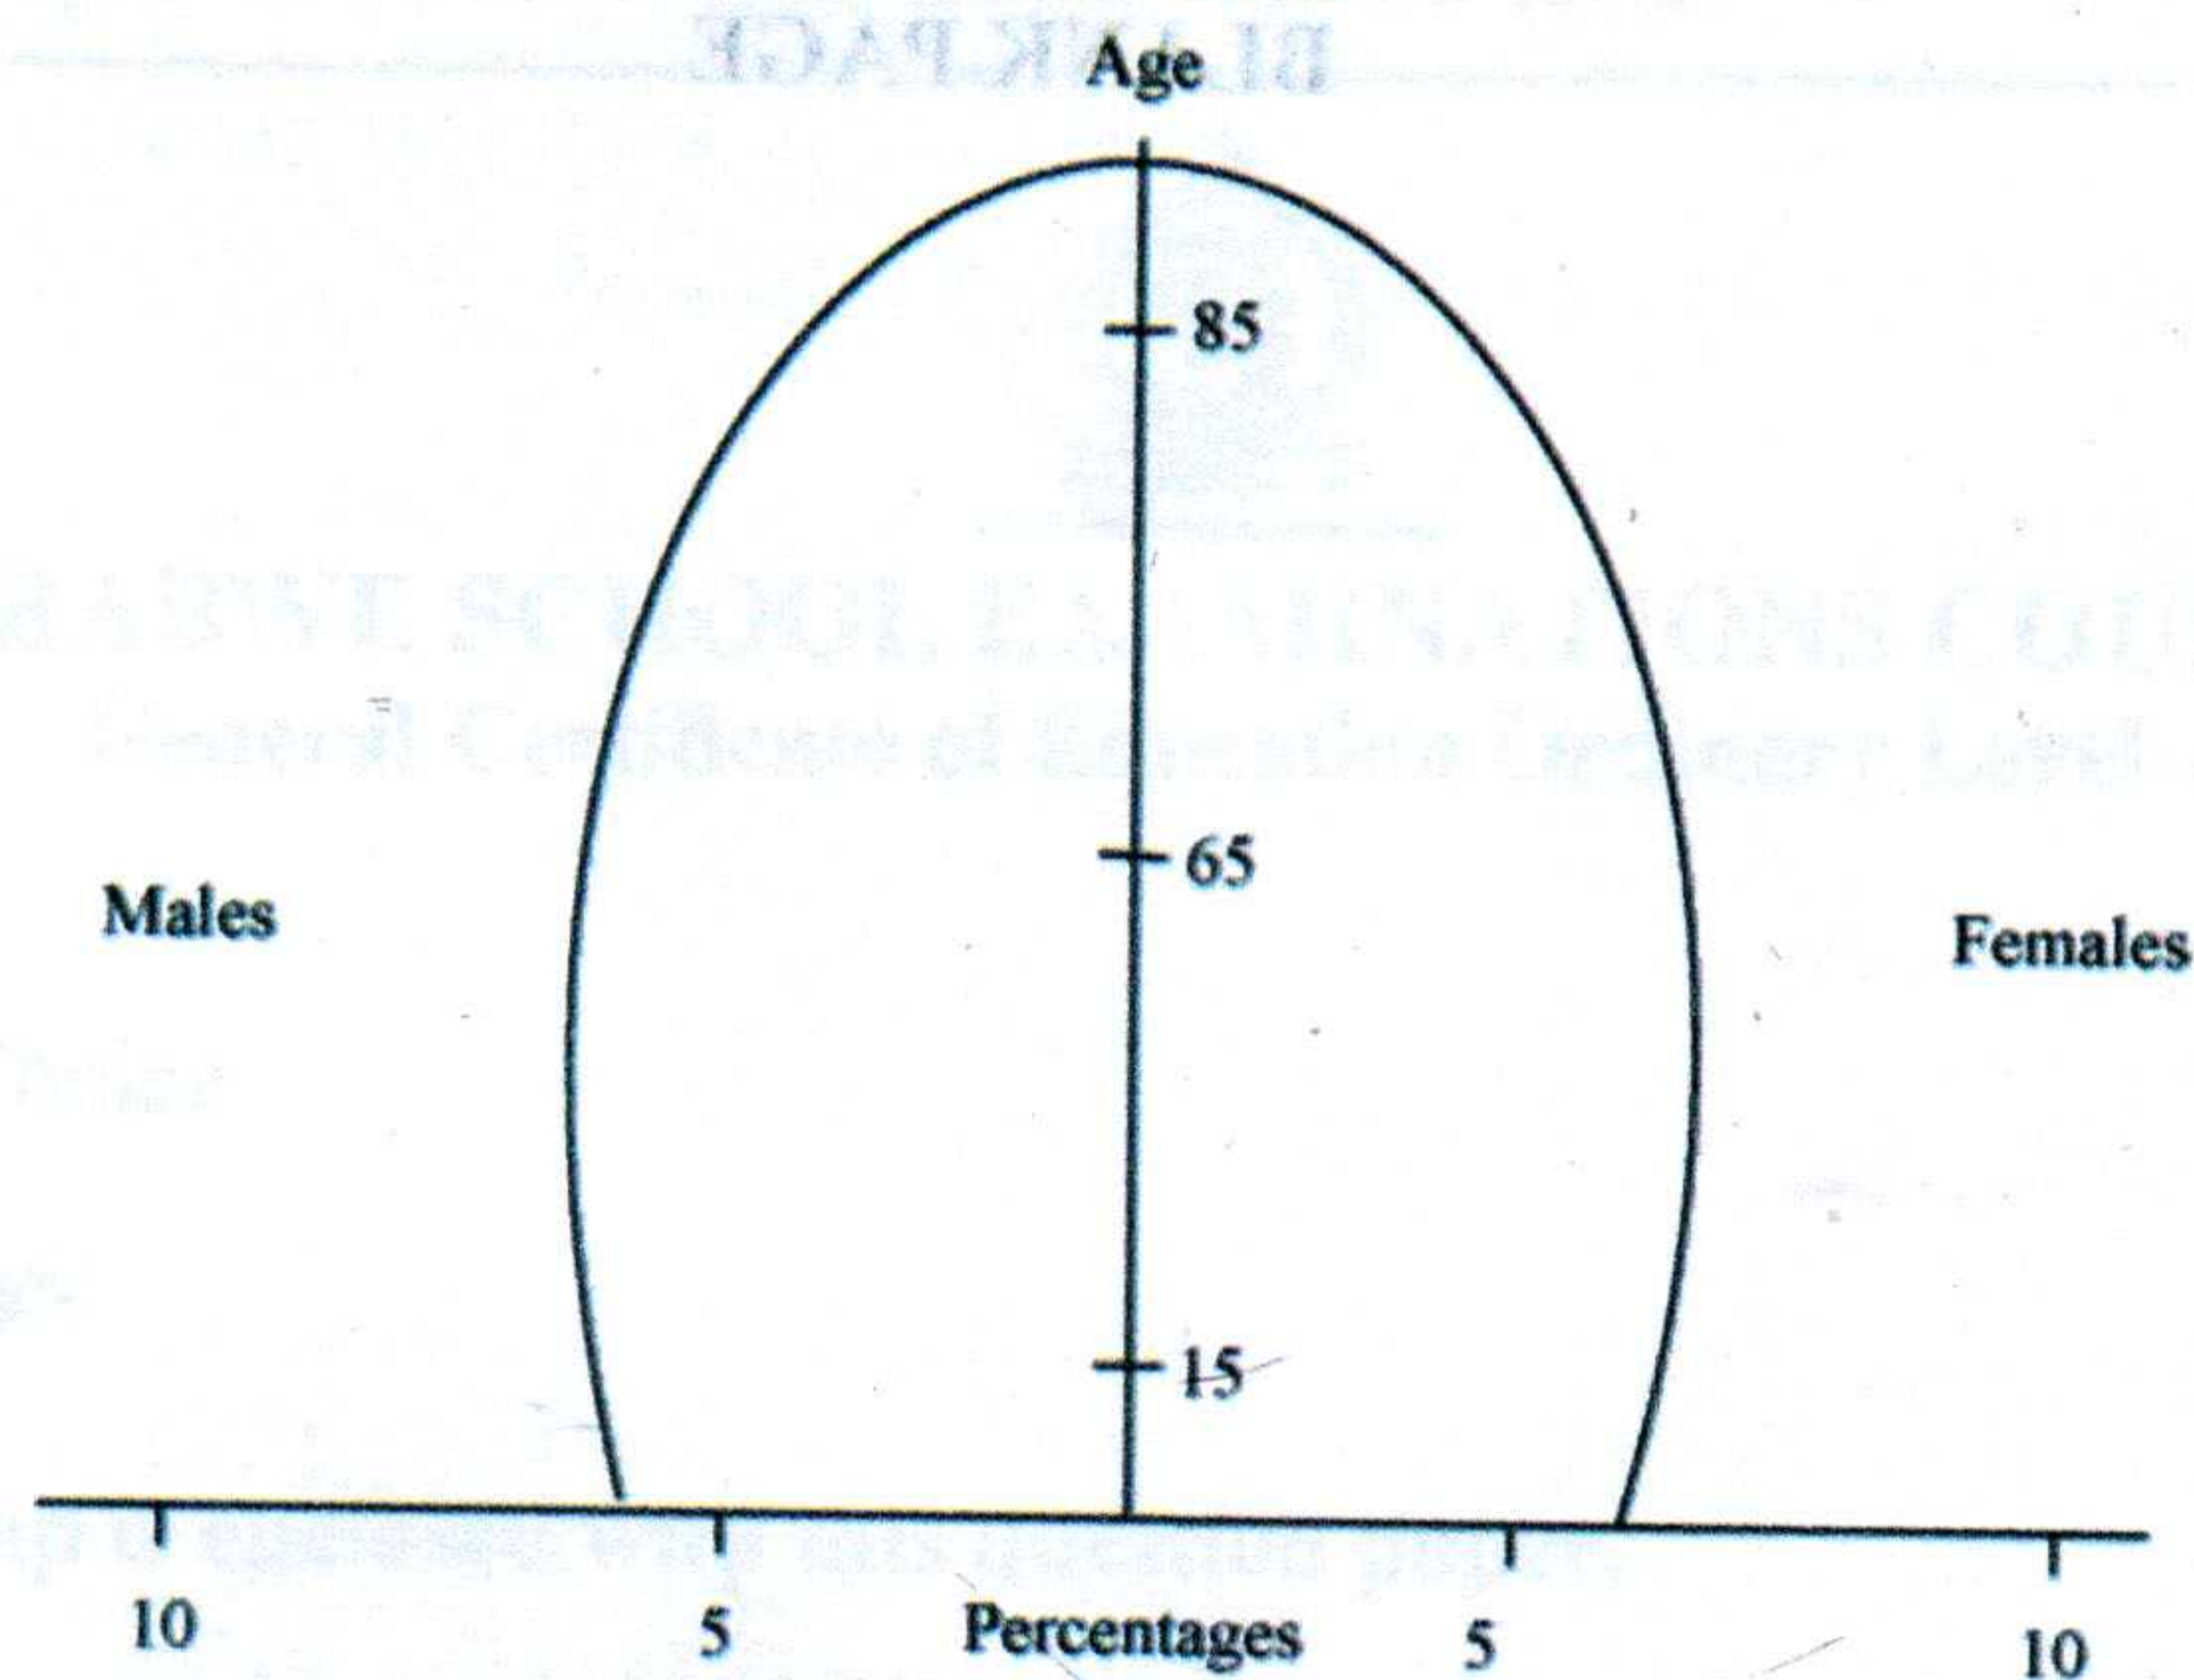

- A increased wage bill.
- B low GDP.
- C labour shortage.
- D rise in migration.

37 Typhoid can be controlled by

- A having a balanced diet.
- B digging wells.
- C water harvesting.
- D providing regular clean water supply.

38

Which type of population pyramid is shown by the illustration above?

- A A contracting
 - B An expanding
 - C A stationary
 - D A widening
- 39 What measure can be implemented to mitigate against possible hazards caused by landform development?
- A Counselling of victims
 - B Settling on high ground
 - C Mobilising building materials
 - D Constructing disaster resilient structures
- 40 What can be done to improve international trade?
- A Increasing import tariffs
 - B Limiting import quotas
 - C Using domestic currencies
 - D Lowering transshipment costs
