- 1 Tinaye is a business owner who has not been keeping complete books of accounts. The following information was available.

Tinaye's extract of statement of financial position as at 31 December 2024

	\$
Land and buildings	200 000
Machinery (at cost \$130 000)	80 000
Fixtures and fittings	38 000
Trade receivables	29 000
Prepaid expenses	12 000
Trade payables	20 000
Inventory at cost	81 600

The following is a summary of his cash book for the year ended 31 December 2025.

	\$		\$
Balance b/d	48 000	Trade payables	130 000
Disposal: Machinery	15 500	Machinery	36 000
Cash sales	28 000	Sundry expenses	35 000
Trade receivables	265 000		

Additional information

- | | \$ |
|---|---------|
| 1. Closing inventory at selling price | 30 000 |
| Opening capital | 460 600 |
| Trade receivables at 31 December 2025 | 32 000 |
| Trade payables at 31 December 2025 | 24 000 |
| 2. Mark up is 2/3 | |
| 3. During the year ended 31 December 2025, some of the inventory in the business was destroyed by fire but no amount had been determined. The insurer agreed to compensate 40% of the inventory destroyed. | |
| 4. Machinery bought on 1 May 2023 with a cost price of \$35 000 was sold for \$15 500 on 1 July 2025. Depreciation on machinery is to be provided for at the rate of 25% per annum using straight line method. A full year's depreciation should be provided for in the year of purchase and none in the year of sale. No depreciation is charged on fixtures and fittings. | |
| 5. A monthly rent of \$100 is payable by the business. By 31 December 2025 \$1 500 had been paid towards rentals. Rent is included in the sundry expenses account. | |
| 6. An allowance of doubtful debts at 5% of trade receivables is to be created. | |

- (a) Prepare Tinaye's
- (i) statement of profit or loss for the year ended 31 December 2025. [15]
 - (ii) statement of financial position as at 31 December 2025. [8]
- (b) State the basis of valuing inventory. [2]

2 Tan Plc had the following balances on 1 January 2024.

	\$
January 1. Machinery at cost	74 000 Dr
Delivery van at cost	128 000 Dr
Provision for depreciation:	
Machinery	22 200 Cr
Delivery vans	24 320 Cr

Additional information

1. It is company policy to depreciate machinery by 20% per annum using the straight line method for each month of ownership and delivery vans by 10% per annum using the reducing balance method.
2. On 30 June 2024, a new machine XLY was bought on credit from IBM for \$8 000.
3. On 31 March 2025, a new machine, XAY was sold for \$2 000. It had been bought on 1 January 2022 for \$4 000.
4. On 1 July 2025, delivery van DPL was bought for \$20 000 by cheque. On the same day, delivery van DBP bought on 30 June 2022 for \$12 000 was sold for \$6 200.
5. Tan's financial year ends on 31 December.

- (a) Prepare
- (i) machinery account for the years 2024 and 2025, [4]
 - (ii) delivery van account for the years 2024 and 2025, [4]
 - (iii) provision for depreciation on delivery vans account for the years 2024 and 2025, [7]
 - (iv) disposal account on delivery vans. [4]
- (b) Outline any **four** provisions of the International Accounting Standard (IAS) 16 in relation to disclosure in the financial statements. [4]
- (c) Identify **two** advantages of the reducing balance method of depreciation. [2]
